FALLS AND INJURY

Information about fall and injury among adults aged 45 years old and older is derived from following questions.

By a fall, we mean when a person unintentionally comes to rest on the ground or another lower level.

A.*/* In the past 3 months, how many times have you fallen?

If the answer was one or more than one then the next question was asked.

B.*/* How many of these falls caused an injury?

By an injury, we mean the fall caused you to limit your regular activities for at least one day or to go see the doctor.

Number of falls in the past 3 months and the related injuries

IMMUNIZATION

For Immunization, following questions were asked.

Seasonal flu

Now I will ask you questions about seasonal flu. A flu shot is an influenza vaccine injected into your arm.

A.*/* During the past 12 months, have you had a seasonal flu shot?

B.*/ The seasonal flu vaccine sprayed in the nose is also called FluMist™.*

During the past 12 months, have you had a seasonal flu vaccine that was sprayed in your nose?

Pneumonia

A pneumonia shot or pneumococcal vaccine is usually given only once or twice in a person's lifetime and is different from the flu shot.

Have you ever had a pneumonia shot?

Hepatitis B (The hepatitis B vaccine is completed after the third shot is given)

Have you EVER received the hepatitis B vaccine?

The next question is about behaviors related to Hepatitis B.

HIV

For adults aged 18 to 64, there are 4 questions about HIV in BRFSS questionnaire. The way these questions were asked is described below.

The next few questions are about the national health problem of HIV, the virus that causes AIDS. Please remember that your answers are strictly confidential and that you don't have to answer every question if you do not want to. Although we will ask you about testing, we will not ask you about the results of any test you may have had.

A./ Have you ever been tested for HIV? Do not count tests you may have had as part of a blood donation. Include testing fluid from your mouth.

B./ Not including blood donations, in what month and year was your last HIV test?

C./ Where did you have your last HIV test — at a private doctor or HMO office, at a counseling and testing site, at a hospital, at a clinic, in a jail or prison, at a drug treatment facility, at home, or somewhere else?

If respondents had the test within the past 12 month, next question was asked.

D./ Was it a rapid test where you could get your results within a couple of hours?

Have you ever been tested for HIV, (not counting blood donation test)?
