

# Provider Bulletin

*for the Adult Mental Health Division*

## **February 15, 2012 Community Based Case Management Referrals**

To All Community Based Case Management Providers:

In order to facilitate the redistribution of Adult Mental Health Division (AMHD) consumers necessitated by the recent Community Based Case Management-Recovery Services (CBCM-RS) procurement, AMHD will begin adjusting its assignment of new consumers to CBCM providers effective Tuesday, February 21, 2012.

This may mean that some providers will experience increased referrals and some providers may experience decreased or no referrals until the distribution of AMHD consumers better reflects the award levels of the CBCM-RS contract. AMHD will work closely with providers and consumers during this process to ensure that referrals occur as capacity is developed or becomes available.

AMHD hopes this process will help facilitate a gradual and smooth transition for both our valued CBCM/CBCM-RS providers as well as our valued AMHD consumers.

This process will be in effect for at least the next several months, until further notice from AMHD. If you have any questions regarding this process please contact Kau'i Martinez, AMHD Case Management Specialist at 808-453-6924 or email to [kau\\_i.martinez@doh.hawaii.gov](mailto:kau_i.martinez@doh.hawaii.gov) and Edward Suarez, PhD. at 808-453-6941 or email to [edward.suarez@doh.hawaii.gov](mailto:edward.suarez@doh.hawaii.gov).
