

HEALTHY CHILD CARE HAWAII

Powerpoint Presentations for Health Talks

Pediatric residents at the Department of Pediatrics, School of Medicine, University of Hawaii, have developed powerpoint presentations on various health topics. Health consultants are welcome to use these presentations for their talks with child care program staff, parents, and children. Topics include:

- Childhood Emergencies - Treatment & Prevention
- Difficult Behaviors and How to Deal with Them
- Nutrition and Early Childhood - Facts and Myths
- Caring for Your Child's Eyes
- Discipline & Abuse
- Holiday Safety Tips
- Ultraviolet (UV) Light Exposure - Protecting Your Keiki
- Dealing with Temper Tantrums
- Dental Health
- Look Who's Talking - An Overview of Speech Development
- Playground Safety
- Stagnant Water
- Bugs, Drugs, Nuts and Rashes - An Overview of Pediatric Allergies
- Injury Prevention in Child Care
- Kids and Asthma
- Brain Development
- Keep Germs Away
- Child Care Health Consultants and the Medical Home
- Nutrition & My Keiki
- Separation Anxiety
