Comments:

Pohaku Park is also called "S-Turns" and is located at the border between the Kahana and Mahinahina districts of West Maui. During times of high surf, it is a popular surfing spot. There is a small sandy beach on the southern end of the park. Most of the shoreline fronting the park is rocky. A large culvert empties into the sandy beach area and there is a Maui County sewer pump station located across of the street from the southern end of the park. Shark attacks have occurred in this area.

Pohaku Park entrance as seen from the southern section of the park

Sandy beach at southern end of Pohaku Park

Rocky shoreline at center and northern sections of Pohaku Park
