I. OVERVIEW OF ZOOM WEBINARS

Zoom is the most widely used web conferencing platform. Zoom offers two types of conference to accommodate regular and large groups of attendees. Zoom Meetings can accommodate up to 300 attendees and Zoom Webinars up to 1,000 attendees. It is possible to join Zoom Meetings and Zoom Webinars by using either a computer or a phone.

Due to the COVID pandemic, the Department of Health, Clean Water Branch (CWB) has decided to hold virtual public hearings. In order to accommodate a large number of attendees, the CWB is scheduling Zoom Webinars. For each Zoom Webinar, the CWB is requiring attendees to complete a brief registration form. Attendees can register before or after the start of a Zoom Webinar. The CWB is using the registration information to email updates and reminders to attendees.

Attendees can use [this link](#) to register for the 2022 triennial review of state surface water quality standards.

II. JOIN BY COMPUTER

It is possible to join Zoom Webinars by using a computer. It is recommended to use a computer that is equipped with speakers (or headphones). If a computer is not equipped with speakers (or headphones), it is recommended to use a phone to listen to Zoom Webinars. To avoid audio feedback, do not listen to Zoom Webinars by using both the speakers of a computer and a phone at the same time. It is also recommended to use a phone to participate in Zoom Webinars when a computer is not equipped with a microphone. It is not necessary to use a computer that is equipped with speakers (or headphones), a microphone, and a camera to join Zoom Webinars.

When using a computer to join Zoom Webinars, Zoom automatically downloads the Zoom Client. It is not necessary to install the Zoom Client to join Zoom Webinars. It is recommended to skip the installation of the Zoom Client and to join Zoom Webinars from a web browser such as Microsoft Edge or Mozilla Firefox.

Figure 1 through Figure 14 show the steps to join Zoom Webinars by computer. Note that the steps to join Zoom Webinars by computer are slightly different for attendees who register before or after the start of a Zoom Webinar.

Attendees who register before the start of a Zoom Webinar are called “early attendees”. Early attendees join a Zoom Webinar by clicking the “Join Webinar” button in the “My Webinar Confirmation” email message that they received from Zoom (see Figure 1 and Figure 2). Early attendees skip the registration steps shown in Figure 3, Figure 4, and Figure 5.

Attendees who register after the start of a Zoom Webinar are called “late attendees”. Late attendees have to register before they can join a Zoom Webinar that is in progress. Late attendees skip the steps shown in Figure 1 and Figure 2, and they have to complete the registration steps shown in Figure 3, Figure 4, and Figure 5.

Your Action (Early attendees only)

- Open “My Webinar Confirmation” email message sent by Zoom after registering for the 2022 triennial review of state surface water quality standards.
