
VACCINE POINTS

“Vaccine Points” is a bi-monthly communication distributed by the Hawaii Department of Health to all participating Vaccines for Children (VFC) providers.

Digital Data Loggers

Over the next two years, the Hawaii VFC program will be purchasing digital data loggers for VFC provider use. New data loggers are being distributed to providers during their biennial VFC compliance site visit. For more information, view the Digital Data Loggers Webinar Archive or contact a Data Logger Resource (listed below).

Digital Data Loggers Webinar Archive

Learn more about digital data loggers, including:

- Benefits of digital data loggers over other temperature monitoring devices;
- Timeline for distribution of digital data loggers to Hawaii VFC providers; and
- Set-up, activation, and use of the Fridge-tag® 2 digital data logger, including addressing alarms and generating reports.
