
VACCINE POINTS

“Vaccine Points” is a bi-monthly communication distributed by the Hawaii Department of Health to all participating Vaccines for Children (VFC) providers.

Test your vaccine knowledge.

Question:

Maria is a healthy 2 year old. Her mother is pregnant. Her grandmother, who lives with the family, is receiving chemotherapy for multiple myeloma. It is currently influenza season.

Here is Maria's vaccination history.

- Hepatitis B vaccine at birth
- Pediarix (DTaP-IPV-hepatitis B combination) at 2, 4, and 6 months of age
- Hib vaccine at 2, 4, 6, and 12 months of age

Which vaccine(s) should Maria receive today?
