

You are invited to be a part of Hawai'i's suicide prevention and awareness efforts!

safeTALK : *Tell, Ask, Listen and KeepSafe*

This three-hour workshop will prepare you to recognize and support a person with thoughts of suicide. You will become a “safeTALK-trained suicide alert helper,” which will allow you to move beyond the common tendency to dismiss or avoid suicide. This training will provide instruction in how to properly connect a person with thoughts of suicide to first aid and intervention caregivers.

ASIST : *Applied Suicide Intervention Skills Training*

This two-day workshop will equip participants to respond knowledgeably and competently to persons at risk of suicide. Participants learn and practice skills in identifying and responding to people at immediate risk of suicide. Just as “CPR” skills make physical first aid possible, training in suicide intervention develops the skills used in suicide first aid. This is a highly interactive workshop that will give you the training that you need in order to be a care-giving resource within your community.
