

HAWAII STATE RURAL HEALTH ASSOCIATION

# Mental Health Data For Rural Hawai`i

October 23, 2014  
Anne M. Chipchase, MA

# HAWAII STATE RURAL HEALTH ASSOCIATION

## PURPOSE

To capture behavioral health data at the Zip Code level for rural Hawai'i, in use in tele-health planning.

# HAWAII STATE RURAL HEALTH ASSOCIATION

So what do I have ...

- Population
- State-specific SMI percentage from NSDUH
- `Ohana SPMI data
- Surgeon General's 1999 SPMI percentage
- Data is generally trustworthy
- Covers only Mental Health – SMI and SPMI
- The Substance Abuse side of Behavioral Health is missing

# HAWAII STATE RURAL HEALTH ASSOCIATION

So then what ...

- Percentage below poverty rate
- Median household income
- Two dominant ethnic groups
- Percentage of high school or better graduates
- Gender
- Median Age
- Veteran's Status and Veteran's Disability Status
- Home ownership statistics

All by Zip Code

# HAWAII STATE RURAL HEALTH ASSOCIATION

And then ...

- It is all very interesting ... look at 96737 – Ocean View or 96778 - Pahoa
- I invite you to play with the data
- I don't know what it tells us
