

FOOD SAFETY PROGRAM

HOW TO GET A GREEN PLACARD

• Avoid Critical Violations •

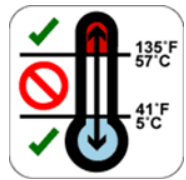

EMPLOYEE HEALTH & HYGIENE:

- Ensure that all hand wash sinks are accessible and stocked with soap & paper towels.
- Employees are required to wash their hands throughout the day and anytime hands may be contaminated.
- Employees cannot work in the food facility if they are ill, especially if they have been vomiting or have diarrhea.
- No bare hand contact with ready-to-eat foods.

FOOD TEMPERATURES:

- All potentially hazardous COLD foods are held at or below 41°F.
- All potentially hazardous HOT foods are held at or above 135°F.
- Cool hot food quickly. Use shallow pans in the refrigerator.

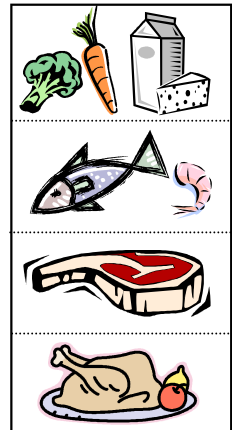

COOKING TEMPERATURES:

- Ensure all final cooking temperatures are met.
Eggs & Pork: 145°F
Ground Beef: 155°F
Poultry: 165°F
- For previously cooked foods that will be held hot, rapidly reheat to 165°F.

FOOD & EQUIPMENT CONTAMINATION:

- Use correct dishwashing method in 3 compartment sink.
WASH → RINSE → SANITIZE
- Use sanitizers properly:
Chlorine: 50-200 ppm
Quaternary Ammonia: As directed by manufacturer's label
Hot water: Rinse cycle of 180°F
- Ensure food prep surfaces are sanitized between preparation of raw and ready-to-eat foods.
- Store raw meat below & separate from ready-to-eat foods & produce.
- Proper storage and use of toxic chemicals.

SOURCES OF FOOD:

- All foods must come from an approved source.
- Do not serve food prepared in a private residence.
- Unpackaged food served to a customer is not re-served or re-used as food.

VIOLATIONS THAT MAY WARRANT THE CLOSURE OF A FACILITY:

- Vermin infestation.
- Widespread food temperature violations that cannot be corrected at time of inspection.
- Lack of hot and/or cold running water.
- Backed up sewage in facility
