ADMINISTRATOR'S REPORT November 2012

Subarea Health Planning Councils (SACs) Activities

Kauai Members are scheduled to meet on October 30, 2012 and continue their work on the development of a community assets map.

Honolulu Members met on October 4, 2012. Dr. Dan Davis of Interactive Care Technologies, LLC, spoke about two ongoing telemedicine projects. The first project involves the Hawaii Stroke Network which is a telemedicine network of seven hospitals working together to improve acute stroke care by increasing access to neurological services. With the use of a wireless mobile telemedicine system, emergency physicians can make a timely decision to give clot buster medication in consultation with the Hawaii Stroke Network specialists.

The second project is a case-control study to reduce hospital days for the medically fragile patients using the wireless mobile telemedicine system. This project uses video visits to the home to help manage the chronic conditions of the medically fragile. A computer is not required because the in-home video camera is directly connected to the internet. The results of the study found an 80% decrease of hospital days per year, 65% decreased hospital admissions per year, and 85% decreased emergency visits per year.

West Oahu & Windward Oahu

No meeting in November.

Tri-Isle Members met on October 5, 2012, and learned from Ms. Tonya Lowery St. John, Epidemiologist, Science and Research Group, Healthy Hawaii Initiative, Hawaii State Department of Health, about the "Hawaii Health Data Warehouse and Other Resources for Community Health Data".

Hawaii The October 2, 2012 meeting was cancelled.
