Health Care Utilization Report

Hawaii 2010

Table of Contents

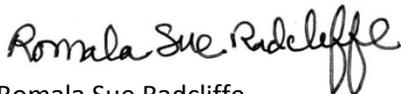

Aloha:

The State Health Planning and Development Agency is pleased to present its annual compilation of the Hawaii's health care utilization report. We extend our gratitude to the Data Center of the Center on the Family at the University of Hawaii for their efforts to analyze the data and produce this report.

The Agency appreciates the efforts that all of the health care facilities made to submit their annual utilization data. This year a significant portion of the data was submitted to the Agency electronically. The use of technology reduced resource costs and the collection processing time.

We know that you will find the 2010 State Health Planning and Development Agency's Health Care Utilization Report a valuable business and research tool. We welcome your comments and suggestions for improvements in the next edition.

With best regards,

Romala Sue Radcliffe
