

How to Use and Apply Data from State and County Alcohol Epidemiological Profiles for Practical Applications

Sponsored by Substance Abuse and Mental Health Administration (SAMHSA) Center for Substance Abuse Prevention (CSAP), and Alcohol and Drug Abuse Division (ADAD) at Hawai'i Department of Health (DOH)

Audience: Hawai'i's community stakeholders and providers in the area of substance use prevention and treatment.

Course Contents: How to use and interpret data in the state and county alcohol epidemiological profiles; importance of data usage; how to use the data for practical applications such as grant writing and program development; what evidence-based programs are and why they are important; and how to find an evidence-based program that fits community's needs and interests.

Instructors: ADAD Epidemiology Team (Claudio Nigg, Ph.D., and Minami Konishi, MPH)

Certificate: Four (4) hours of continuing education credits approved by ADAD DOH

Cost: **FREE**
