**SUBJECT: AMENDMENT OF THE HAWAII DEPARTMENT OF HEALTH PUBLIC
HEALTH ADVISORY NO. 21-165 RELATED TO THE JOINT BASE
PEARL HARBOR-HICKAM PUBLIC WATER SYSTEM (PWS NO. 360)
MANANA MARINE CORPS HOUSING**

This memo serves as official notification that the Hawaii Department of Health (DOH) Safe Drinking Water Branch (SDWB) and Hazard Evaluation and Emergency Response Office (HEER) have reviewed data provided by the SDWB, Naval Facilities Engineering Systems Command Pacific (NAVFAC), Marine Corps Base Hawaii (MCBH), the Interagency Drinking Water System Team (IDWST). SDWB and HEER have determined that the drinking water quality and system infrastructure satisfies the lines of evidence, developed by SDWB, specifically for the Manana Marine Corps Housing water system for amending the public health advisory dated November 29, 2021 (see enclosure).

Rear Admiral Timothy Kott
February 28, 2022
Page 2 of 2

At this time, the water is determined to be safe for drinking in Manana Marine Corps Housing; and all Navy water system users within this zone may now use their water for all purposes including drinking, cooking, and oral hygiene. This includes consumption by pets.

The Joint Base Pearl Harbor-Hickam Public Water System (PWS No. 360) is subject to all applicable requirements under the Safe Drinking Water Act. If new information becomes available that indicates contaminants are present in the drinking water that poses a threat to public health, additional investigations may be required or conducted.

Enclosure: DOH Checklist to Amend the Public Health Advisory in Manana Marine Corps Housing
