Rebekah/Wade -

The attached documents construction, repairs and historical releases for Red Hill Tanks #14 and 15. This summary report is provided primarily in response to EPA/DOH Request 1.b. and Navy Questions 6 and 7 for information regarding dates and estimated volumes of historical releases.

I note here that estimates regarding the volume of releases are estimates only and were based on information available at the time of the event. Some, and perhaps all, estimates may be inflated due to losses within the system through leaky valves or within the tell-tale system.

Although the attached is provided pursuant to and in the course of negotiations, the sender poses no restrictions on further distribution.
