Subject: Red Hill Document Production - EPA/DOH Requests 1.b. and 2.b. / Navy Questions # 6, 7 and 18 - Dates and Estimates of Historical Releases / Fuel Observations - Tanks 19 and 20
Attachments: RH HIST Tank 19 and 20_1.pdf

Rebekah/Wade -

The attached documents construction, repairs and historical releases for Red Hill Tanks 19 and 20. This summary report is provided primarily in response to EPA/DOH Request 1.b. and Navy Questions 6 and 7 for information regarding dates and estimated volumes of historical releases. The Tank #19 report contains some information regarding the flow of oil and water into the tank during inspection and repairs in response to EPA/DOH Request 2.b. and Navy Question # 18, though this observation was made in 1964.

I note here that estimates regarding the volume of releases are estimates only and were based on information available at the time of the event. Some, and perhaps all, estimates may be inflated due to losses within the system through leaky valves or within the tell-tale system.

Although the attached is provided pursuant to and in the course of negotiations, the sender poses no restrictions on further distribution.

R,
JMW
