

Hawaii Department of Health
Adult Mental Health Division (AMHD)
Request for Information (RFI) Response Summary
RFI No. AMHD 420-5-18
Nursing Services
Statewide

A Request for Information for Nursing Services was issued on July 14, 2017. Written responses were received from two organizations. Below is a summary of the responses received through this process as they relate to the questions from the RFI.

Although only one Respondent currently provides nursing services in the State of Hawaii, both Respondents are interested in submitting a proposal to provide nursing services for the AMHD, statewide.

Both Respondents stated that the travel distance between the Continental United States and Hawaii will be a challenge. One Respondent added that the nursing industry is experiencing a dwindling supply of qualified nurses.

One Respondent suggested that separate rates be established by region; 1) nurses traveling from Continental United States and 2) nurses based in Hawaii.

The AMHD appreciates the level of interest and the observations made regarding the RFI for Nursing services. These observations and recommendations will be reviewed and taken into consideration when drafting the Scope of Service for the program. An RFP is planned to be issued for this service.
