INTRODUCTION

Who was surveyed?

The calendar year 2014 Hawaii Behavioral Risk Factor Surveillance System (BRFSS) survey included landline and cell phone participants. All cell phone and landline participants included in the tables presented in this document were Hawaii residents at the time they were surveyed in 2014.

By the end of calendar year 2014, the overall Hawaii BRFSS survey response rate* was 42.2%. By phone type, the landline response rate was 44.6% with 2,663 adult completing^a the survey and 241 adults partially completing the survey for a total of 2,904 landline surveys; meanwhile, cell phone response rate was 37.1% consisting of 4,869 adult respondents. However, 581 of them or nearly 12% of the cell phone respondents no longer resided in the state. These respondents were not included in this analysis. A total of 4,288 Hawaii cell phone surveys were included in the analysis of which 613 partially completed the survey (14.3%). In addition, 55 respondents with 'out of state' cell phone numbers but who currently reside in Hawaii participated in the BRFSS from their cell phone state of origin were also included. Thus, a grand total of 4,343 cell phone interviews were included in the analysis of the core questions. Looking only at the landline and cell phone surveys with area code 808, the overall number of respondents was 7,192 of which 6,049 (84.1%) answered all the interview questions from core questions, selected optional modules questions and state added questions.

How was the data weighted?

The sample was weighted to reflect the adult population of the state utilizing the sample design weight and adjusting for overlapping phone usage** to derive the composite weight and adjusting this composite weight for the population. The weighting strategy, called iterative proportional fitting or raking, sub-divided the adult population of Hawaii in sixteen ways (called control marginals) to derive the final weights for the 7,247 respondents. Six of these sixteen marginal were single variables including race, education, marital status, home ownership, telephone source and county. The remaining were combinations of the individual variables, including gender & age, gender & race, gender & county, race & age, county & age and county & race. The number of categories within the control marginal varied. For example, the 'gender & age' marginal had 14 categories representing the male and female adult populations, each grouped into seven age categories. The 'county & age' marginal had 24 categories representing six age groups within each of Hawaii's four counties. The sixteen marginal totals were used in a repetitive adjustment process to derive final weighting factors which, when applied to the sample, statistically adjusted the sample to be representative of the Hawaii adult population. Raking is the same methodology used by the US Census American Community Survey.

What information is displayed in the tables?

All the percentages and confidence intervals in the statistical tables included are weighted to reflect the adult population of the state. In creating the indicators presented in these reports, respondents who reported that they didn't know the answer to a question, those who refused to answer the question, or those whose responses to a particular question were not recorded for any other reason were excluded from the analysis of that particular indicator. Thus, the number of respondents for each indicator in the analysis varies slightly and is typically less than the total sample of 7,247.

For this year 2014, results with the relative standard error (RSE) greater than 0.30 or questions with fewer than fifty respondents were not reported. The RSE is computed as the standard error divided by the mean. A lower RSE has a more precise measurement since there is less variance around the mean. In most cases, the mean presented is the prevalence rate. For example, the prevalence of adult smoking in our state was 14.1% and the standard error was 0.5992%, thus, the RSE was 0.04, which was less than 0.30. In contrast, in Lanai, the prevalence of adult smoking was 37.09% and the standard error was 16.15% resulting in RSE of 0.44, which was greater than 0.30 and therefore suppressed, denoted by a symbol N/A in the table. The analytical results are presented in terms of socio-demographic characteristics including age, sex, self-reported single ethnicity group, marital status, education, employment, annual household income, as well as geographic characteristics including county and sub-county.

Example

To look up an indicator of general health, the reader is referred to the 'General health status' table. The column 'Total N' is the number of adults sampled who responded to the question, including the number of adults in each response category. This column is the raw survey count and should not be interpreted, as this data is not weighted. To obtain the true, weighted population parameters for this indicator, the reader is directed to the 'Estimated Number of Adults' column.

- To find out the prevalence of poor health, go to the "POOR" column, from where you find that 3.3% of adults in the state reported their health is poor. In order to compute the estimated number of adults that report being in poor health in year 2014, multiply the POOR percent value with the 'Estimated number of Adults' column value and divide the result by 100. For 2014, this calculation $(3.3 * 1,111,189) / 100$ give a result of 36,669, rounded to the nearest whole number. As a result, one may say 3.3% of adults in Hawaii report being in poor health, which translates to about 36,669 adults.
- Similarly, if one wants to know how many adults aged 75 years and older are in poor health, use the values in the row '75+ years' to repeat the same calculation. Here, the calculation performed $(6.3 * 101,296) / 100$ gives a result of 6,382 rounded to the nearest whole number. This number is interpreted to mean that '6,382 adults who are 75 years or older reported their health was poor in 2014, or equivalently, 6.3% of 75 years olds reported being in poor health.

^a Completed interviews means that the core BRFSS questions were answered.

**Response rates for BRFSS are calculated using standards set by the American Association of Public Opinion Research (AAPOR) Response Rate Formula #4 (http://www.aapor.org/Standard_Definitions2.htm). The response rate is the number of respondents who completed the survey as a proportion of all eligible and likely-eligible persons. For detailed information see the BRFSS Summary Data Quality Report http://www.cdc.gov/brfss/annual_data/2013/pdf/2013_DQR.pdf*

***For explanation of sample design weight and weighting in general see http://www.cdc.gov/brfss/annual_data/2013/pdf/Weighting_Data.pdf*

Following tables present information from Hawaii BRFSS 2014 by demographic and geographic characteristics

Demographic characteristics

Demographic characteristics of Hawaii population are constructed based on the following questions:

A./ What is your age? (Code age in years)

B./ Sex of respondent (Recorded after the random selection procedure was done)

C./ Which one of the following would you say is your ethnicity? (Allow up to 6 ethnicities)

1. Caucasian (includes European, German, Irish, Italian, English)
2. Hawaiian
3. Chinese
4. Filipino
5. Japanese
6. Korean
7. Samoan
8. Black
9. American Indian/ Alaska Native/ Eskimo/ Inuit
10. Vietnamese
11. Asian Indian
12. Portuguese
13. Guamanian/Chamorro
14. Puerto Rican
15. Mexican
16. Tongan
17. Laotian
18. Cambodian
19. Malaysian
20. Fijian
21. Micronesian
22. Other Asian (record the specified)
23. Other (record the specified)

If more than one answer, then ask: *Which one of these groups would you say best represents of your ethnicity?*

D./ Are you ...?

1. Married
2. Divorced
3. Widowed
4. Separated
5. Never married
6. A member of an unmarried couple

E./ What is the highest grade or year of school you completed?

1. Never attended school or only attended kindergarten
2. Grades 1 through 8 (Elementary)
3. Grades 9 through 11 (Some high school)
4. Grade 12 or GED (High school graduate)
5. College 1 year to 3 years (Some college or technical school)
6. College 4 years or more (College graduate)

F./ Are you currently ...?

1. Employed for wages
2. Self-employed
3. Out of work for more than 1 year
4. Out of work for less than 1 year
5. A Homemaker
6. A Student
7. Retired

G./ Is your annual household income from all sources ...?

1. Less than \$10,000
2. From \$10,000 to less than \$15,000)
3. From \$15,000 to less than \$20,000)
4. From \$20,000 to less than \$25,000)
5. From \$25,000 to less than \$35,000)
6. From \$35,000 to less than \$50,000)
7. From \$50,000 to less than \$75,000)
8. \$75,000 or more

County and Community

County and community are obtained from two questions.

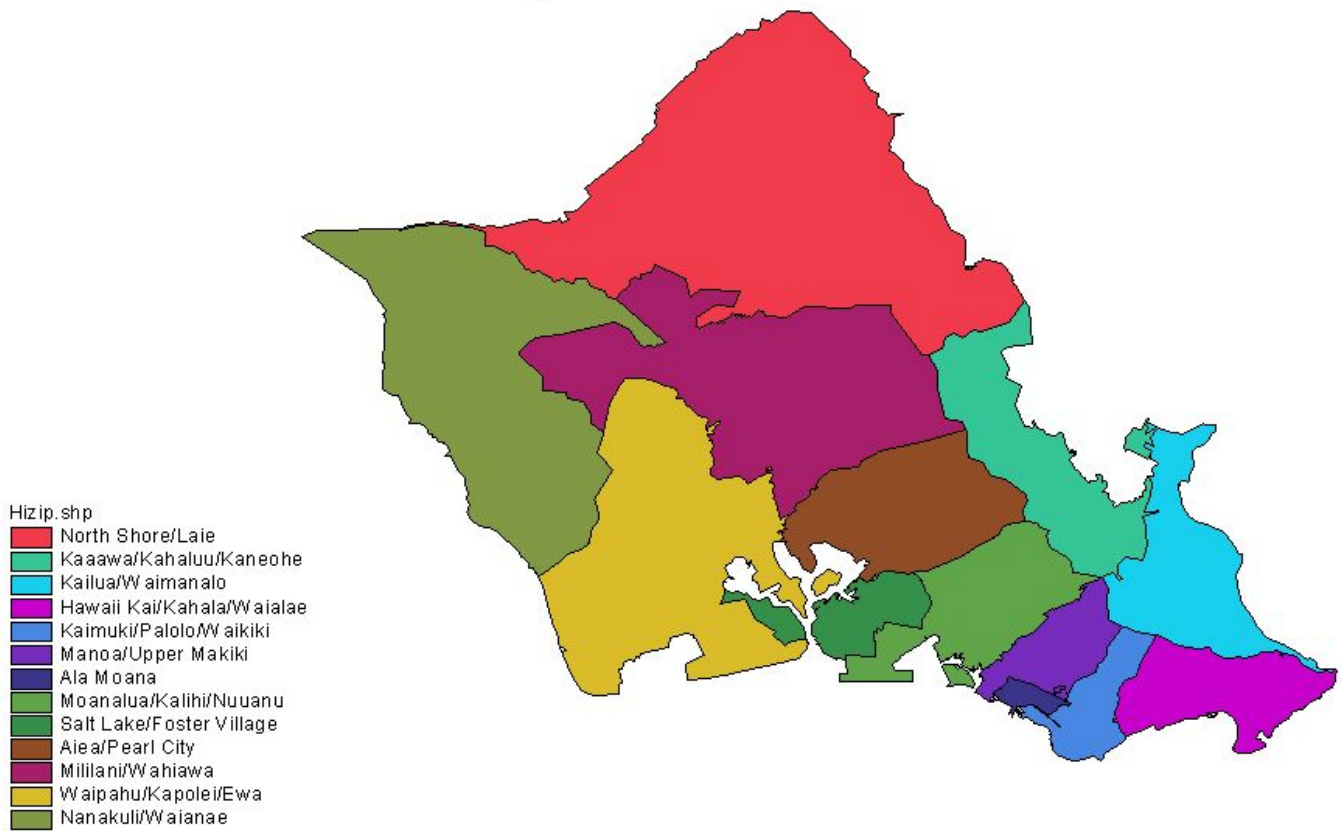

A./ What island do you live on?

B./ What is the ZIP Code where you live?

Definition of community

The four counties of the State of Hawaii are subdivided into communities or sub-areas by grouping zip codes such that each group has at least one school complex. These zip codes were given names as shown in the Community column in the following community maps by county.

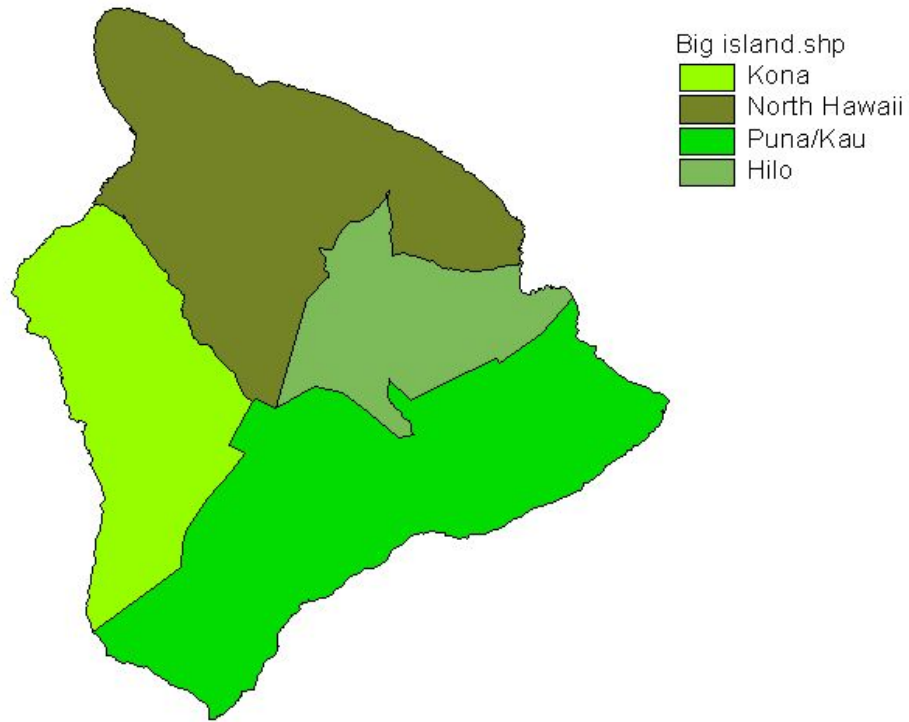

Honolulu County

HEALTH CARE

About Health Care and Health Care Access, these following questions were asked

A./ Do you have any kind of health care coverage, including health insurance, prepaid plans such as HMOs, government plans such as Medicare, or Indian Health Service?

B./ Do you have one person you think of as your personal doctor or health care provider?

1. Yes, only one
2. More than one
3. No

C./ Was there a time in the past 12 months when you needed to see a doctor but could not because of cost?

d./ About how long has it been since you last visited a doctor for a routine checkup? (A routine checkup is a general physical exam, not an exam for a specific injury, illness, or condition)

1. Within past year (anytime less than 12 months ago)
2. Within past 2 years (1 year but less than 2 years ago)
3. Within past 5 years (2 years but less than 5 years ago)
4. 5 or more years ago
5. Never

Have any kind of health care coverage

HEALTH STATUS

Information about Health Status is drawn from the answers of following questions:

A./ Would you say that in general your health is ...?

1. Excellent
2. Very good
3. Good
4. Fair
5. Poor

B./ Now thinking about your physical health, which includes physical illness and injury, for how many days during the past 30 days was your physical health not good?

C./ Now thinking about your mental health, which includes stress, depression, and problems with emotions, for how many days during the past 30 days was your mental health not good?

** Definition of health as 'Good' or 'Not good'*

- *Good* means the *reported number of days is zero (0)* in question B or question C.
- *Not good* means there were at least one reported day that physical health or mental was not good in the past 30 days.

**The measures of unhealthy days combine the results of question B and C. The results are presented in*

- (1) Number of days categorized as None (zero days), 1-6 days, 7-13 days and 14 or more days.
- (2) Average number of days
- (3) Physical and mental health status categorized as 'Both physical and mental

DISABILITY

The following questions are about disability

A./ During the past 30 days, for about how many days did poor physical or mental health keep you from doing your usual activities, such as self-care, work, or recreation?

B./ Are you limited in any way in any activities because of physical, mental, or emotional problems?

C./ Do you now have any health problem that requires you to use special equipment, such as a cane, a wheelchair, a special bed, or a special telephone?

D./ Are you blind or do you have serious difficulty seeing, even when wearing glasses?

E./ Because of a physical, mental, or emotional condition, do you have serious difficulty concentrating, remembering, or making decisions?

F./ Do you have serious difficulty walking or climbing stairs?

G./ Do you have difficulty dressing or bathing?

H./ Because of a physical, mental, or emotional condition, do you have difficulty doing errands alone such as visiting a doctor's office or shopping?

**Number of days in the past 30 days when activity was limited due to poor health

Means are weighted to population characteristics.

95% C.I. = Confidence Interval at 95 percent probability level.

The symbol '--' means cell size less than 50. Not applicable (N/A) when Relative Standard Error (RSE) > 0.3.

Limited in any activities because of health problem

CHRONIC HEALTH CONDITION

To gather information about Chronic Health Conditions among Hawaii population, these following questions were asked.

Depression

Has a doctor, nurse, or other health professional EVER told you that you have a depressive disorder, including depression, major depression dysthymia, or minor depression?

Asthma

For adults

A./ Has a doctor, nurse, or other health professional EVER told you had asthma?

B./ Do you still have asthma?

For children

If the residence of respondent has children, a random child was selected. Then, following questions were asked in addition with questions about the child's age, gender and ethnicity. If there was only one child, then the questions were asked about that child.

A./ Has a doctor, nurse or other health professional EVER said that the child has asthma?

B./ Does the child still have asthma?

COPD

Has a doctor, nurse, or other health professional EVER told you have Chronic Obstructive Pulmonary Disease or COPD, emphysema or chronic bronchitis?

Kidney

Has a doctor, nurse, or other health professional EVER told you that you have kidney disease?
(*NOT include kidney stones, bladder infection or incontinence*)

Diabetes and Pre-diabetes

A./ Has a doctor, nurse, or other health professional EVER told you that you have diabetes?

If “Yes” and respondent is female, ask: “Was this only when you were pregnant?”

If “No” or female respondents who only had diabetes during pregnancy, the next two questions were asked,

B./ Have you had a test for high blood sugar or diabetes within the past three years?

C./ Have you ever been told by a doctor or other health professional that you have pre- diabetes or borderline diabetes?

If “Yes” and respondent is female, ask: “Was this only when you were pregnant?”

Cancer

A./ Has a doctor, nurse, or other health professional EVER told you that you had skin cancer?

B./ Has a doctor, nurse, or other health professional EVER told you that you had other types of cancer?

Cardiovascular diseases

Has a doctor, nurse, or other health professional EVER told you that you had ...?

- a heart attack also called a myocardial infarction
- angina or coronary heart disease
- a stroke

Arthritis

A./ Has a doctor, nurse, or other health professional EVER told you that you have some form of arthritis, rheumatoid arthritis, gout, lupus, or fibromyalgia?

**Told by a doctor or health professional you have a depressive disorder
(including depression, major depression, dysthymia, or minor depression)

FALL AND INJURY

Information about fall and injury among adults aged 45 years old and older is derived from following questions.

By a fall, we mean when a person unintentionally comes to rest on the ground or another lower level.

A./ In the past 12 months, how many times have you fallen?

If the answer was one or more than one then the next question was asked.

B./ Did this fall cause an injury?

OR

How many of these falls caused an injury?

By an injury, we mean the fall caused you to limit your regular activities for at least one day or to go see the doctor.

**Number of times you fell in the past 12 months and the related injuries
(Adults aged 45 years and older)
State of Hawaii BRFSS 2014**

TOBACCO USE

Following questions are related to Tobacco Use.

A./ Questions about smoking cigarettes and other tobacco products

1. Have you smoked at least 100 cigarettes in your entire life?
2. Do you now smoke cigarettes every day, some days, or not at all?
(Adults who have smoked at least 100 cigarettes were asked)
3. During the past 12 months, have you stopped smoking for one day or longer because you were trying to quit smoking?
(Adults who now smoked every day or some days were asked)
4. How long has it been since you last smoked a cigarette, even one or two puffs?
(Adults who answered "not at all" in question B were asked)
5. Do you currently use chewing tobacco, snuff, or snus every day, some days, or not at all?

B./ Questions about electronic-cigarette

1. Have you ever used an e-cigarette, electronic cigarettes or vapor cigarettes?

Adults who answered "YES" would be asked

2. What are the reasons for using e-cigarettes?
3. Were any of the e-cigarettes that you used flavored to taste like menthol, mint, clove, spice, candy, fruit, chocolate, or other sweets?
4. Do you now use e-cigarettes every day, some days, or not at all?

C./ Questions about second hand smoke

1. On how many of the past 7 days, did anyone smoke in your home while you were there?
2. Which statement best describes the rules about smoking inside your home? Do not include decks, lanais, garages, or porches.
 - Smoking allowed anywhere in home
 - Smoking is allowed in some places/time in home
 - Smoking is not allowed in home
3. In the past 7 days, have you been in a car with someone who was smoking?
4. Which statement best describes the rules about smoking in your family car or cars?
 - Smoking allowed in cars
 - Smoking is allowed in sometimes or some in cars
 - Smoking is not allowed in cars

Lifetime smoking of at least 100 cigarettes (Ever Smoked)

ALCOHOL USE

There are four questions asked relevant to alcohol consumption.

A./ During the past 30 days, how many days per week or per month did you have at least one drink of alcoholic beverage such as beer, wine, a malt beverage or liquor?

B./ One drink is equivalent to a 12-ounce beer, a 5-ounce glass of wine, or a drink with one shot of liquor. During the past 30 days, on the days when you drank, about how many drinks did you drink?

NOTE: A 40 ounce beer would count as 3 drinks or a cocktail drink with 2 shots would count as 2 drinks.

C./ Considering all types of alcoholic beverages, how many times during the past 30 days did you have X ($X = 5$ for men, $X = 4$ for women) or more drinks on an occasion?

D./ During the past 30 days, what is the largest number of drinks you had on any occasion?

Binge drinking at least once in the past 30 days

(men having five or more drinks on one occasion, women having four or more drinks on one occasion)

Percentages are weighted to population characteristics.

N = Cell Sample Size, % = Percentage, 95% C.I. = Confidence Interval at 95 percent probability level

Rows with Sample Size less than 50 have been suppressed. Not applicable (N/A) when Relative Standard Error (RSE) > 0.3

At your last checkup, were you asked in person or on a form if you drink alcohol?

(Adults who had a checkup within the last 2 years)

Percentages are weighted to population characteristics.

N = Cell Sample Size, % = Percentage, 95% C.I. = Confidence Interval at 95 percent probability level

Rows with Sample Size less than 50 have been suppressed. Not applicable (N/A) when Relative Standard Error (RSE) > 0.3

Rows with Sample Size less than 50 have been suppressed. Not applicable (N/A) when Relative Standard Error (RSE) > 0.3

IMMUNIZATION

For Immunization, following questions were asked.

Seasonal flu

There are two ways to get the seasonal flu vaccine, one is a shot in the arm and the other is a spray, mist, or drop in the nose called FluMist™.

A new flu shot came out in 2011 that injects vaccine into the skin with a very small needle. It is called Fluzone Intradermal vaccine. This is also considered a flu shot.

A./ During the past 12 months, have you had either a seasonal flu shot or a seasonal flu vaccine that was sprayed in your nose?

B./ During what month and year did you receive your most recent flu shot injected into your arm or flu vaccine that was sprayed in your nose?

Pneumonia

A pneumonia shot or pneumococcal vaccine is usually given only once or twice in a person's lifetime and is different from the flu shot.

Have you ever had a pneumonia shot?

Shingles vaccine

Have you ever had the shingles or zoster vaccine?

Had a flu shot or a flu vaccine that was sprayed in your nose during the past 12 months

PROSTATE CANCER SCREENING

With men aged 40 years old or older, for prostate cancer screening, these questions were asked about the Prostate-Specific Antigen test.

A Prostate-Specific Antigen test, also called a PSA test, is a blood test used to check men for prostate cancer.

A./ Has a doctor, nurse, or other health professional EVER talk with you about the advantages of the PSA test?

B./ Has a doctor, nurse, or other health professional EVER talk with you about the disadvantages of the PSA test?

C./ Has a doctor, nurse, or other health professional EVER recommended that you have a PSA test?

D./ Have you EVER HAD a PSA test?

E./ How long has it been since you had your last PSA test?

1. Within the past year (anytime less than 12 months ago)
2. Within the past 2 years (1 year but less than 2 years)
3. Within the past 3 years (2 years but less than 3 years)
4. Within the past 5 years (3 years but less than 5 years)
5. 5 or more years ago

F./ What was the MAIN reason you had this PSA test – was it ...?

1. Part of a routine exam
2. Because of a problem
3. Other reason

**Talked to by a doctor, nurse, or other health professional about the advantages of the PSA test
(Men aged 40 years and older)
State of Hawaii BRFSS 2014**

BREAST AND CERVICAL CANCER SCREENING

For women's breast and cervical cancer's screening, these following questions were asked.

A./ A mammogram is an x-ray of each breast to look for breast cancer. Have you ever had a mammogram?

B./ How long has it been since you had your last mammogram?

1. Within the past year (anytime less than 12 months ago)
2. Within the past 2 years (1 year but less than 2 years ago)
3. Within the past 3 years (2 years but less than 3 years ago)
4. Within the past 5 years (3 years but less than 5 years ago)
5. 5 or more years ago

C./ A clinical breast exam is when a doctor, nurse, or other health professional feels the breasts for lumps. Have you ever had a clinical breast exam?

D./ How long has it been since your last breast exam?

1. Within the past year (anytime less than 12 months ago)
2. Within the past 2 years (1 year but less than 2 years ago)
3. Within the past 3 years (2 years but less than 3 years ago)
4. Within the past 5 years (3 years but less than 5 years ago)
5. 5 or more years ago

E./ A Pap test is a test for cancer of the cervix. Have you ever had a Pap test?

F./ How long has it been since you had your last Pap test?

1. Within the past year (anytime less than 12 months ago)
2. Within the past 2 years (1 year but less than 2 years ago)
3. Within the past 3 years (2 years but less than 3 years ago)
4. Within the past 5 years (3 years but less than 5 years ago)
5. 5 or more years ago

G./ Have you had a hysterectomy?

**Had a mammogram

COLORECTAL CANCER SCREENING

With adults aged 50 years old or older, for colorectal cancer screening, these questions were asked.

A./ *A blood stool test is a test that may use a special kit at home to determine whether the stool contains blood.*

Have you ever had this test using a home kit?

B./ How long has it been since you had your last blood stool test using a home kit?

- 1 Within the past year (anytime less than 12 months ago)
- 2 Within the past 2 years (1 year but less than 2 years ago)
- 3 Within the past 3 years (2 years but less than 3 years ago)
- 4 Within the past 5 years (3 years but less than 5 years ago)
- 5 5 or more years

C./ *Sigmoidoscopy and colonoscopy are exams in which a tube is inserted in the rectum to view the colon for signs of cancer or other health problems.*

Have you ever had either of these exams?

D./ How long has it been since you had your last sigmoidoscopy or colonoscopy?

- 1 Within the past year (anytime less than 12 months ago)
- 2 Within the past 2 years (1 year but less than 2 years ago)
- 3 Within the past 3 years (2 years but less than 3 years ago)
- 4 Within the past 5 years (3 years but less than 5 years ago)
- 5 Within the past 10 years (5 years but less than 10 years ago)
- 6 10 or more years

E./ *For a SIGMOIDOSCOPY, a flexible tube is inserted into the rectum to look for problems. A COLONOSCOPY is similar, but uses a longer tube, and you are usually given medication through a needle in your arm to make you sleepy and told to have someone else drive you home after the test.*

Was your MOST RECENT exam a sigmoidoscopy or a colonoscopy?

Had a blood stool test using a home kit

HIV

There are 3 questions about HIV in BRFSS 2013 questionnaire. The way these questions were asked is described below.

The next few questions are about the national health problem of HIV, the virus that causes AIDS. Please remember that your answers are strictly confidential and that you don't have to answer every question if you do not want to. Although we will ask you about testing, we will not ask you about the results of any test you may have had.

A./ Have you ever been tested for HIV? Do not count tests you may have had as part of a blood donation. Include testing fluid from your mouth.

B./ Not including blood donations, in what month and year was your last HIV test?

C./ Where did you have your last HIV test — at a private doctor or HMO office, at a counseling and testing site, in the **emergency room**, as an inpatient in a hospital, at a clinic, in a jail or prison, at a drug treatment facility, at home, or somewhere else?

Had a test for HIV
(Not counting the test done for blood donation)
