March 19, 2026

To: All Owners/Operators Holding a Covered Source Permit Issued by the Department of Health, Clean Air Branch

**SUBJECT: Reminder to Use the Updated 2026 Annual Fee Forms for Covered Source Permits (CSPs) For Operation in Calendar Year 2025**

As previously stated in our December 22, 2025 courtesy reminder, the 2026 Annual Fees for CSPs (for operation in CY 2025) now requires the reporting of condensable particulate matter (PM condensable) along with the total particulate matter (PM primary), total PM<sub>10</sub> or particulate matter with an aerodynamic diameter of 10 micrometers (µm) or less (PM<sub>10</sub> primary), and total PM<sub>2.5</sub> or particulate matter with an aerodynamic diameter of 2.5 µm or less (PM<sub>2.5</sub> primary).

**Please use the updated 2026 CSP fee forms**, F-1CP (Revised 11/26/2025), F-1GHG, F-2CP (Revised 11/26/2025), F-2GHG, and F-3CP/GHG, from the CAB website at:

<https://health.hawaii.gov/cab/air-pollution-control-permit-annual-fee-forms/>

The updated F-1CP (Revised 11/26/2025) and F-2CP (Revised 11/26/2025) forms now include a column for PM condensable and the column headers have been relabeled to PM primary, PM<sub>10</sub> primary, and PM<sub>2.5</sub> primary.

For reference: PM primary = PM filterable + PM condensable  
PM<sub>10</sub> primary = PM<sub>10</sub> filterable + PM condensable  
PM<sub>2.5</sub> primary = PM<sub>2.5</sub> filterable + PM condensable

- If you have already submitted your 2026 annual fees with the older fee forms, **please resubmit using the current fee forms** as noted in the hyperlink above.
- If you have already submitted your 2026 annual fees with the current updated fee forms, please disregard this reminder.

The Annual Fees for CSPs are required to be submitted to the Department of Health, Clean Air Branch (CAB), by **April 30, 2026** (120 days after the end of the calendar year). The annual fees are based on the tons of regulated criteria air pollutants and greenhouse gases (both biogenic and nonbiogenic) emitted during the prior calendar year. Fees are being charged for primary particulate matter (which includes both the filterable and condensable portions), sulfur dioxide, nitrogen oxide, and carbon dioxide equivalent emissions.

If additional time is needed to submit your 2026 annual fees, a written request for an extension must be submitted at least fifteen (15) days prior to the required submission date in accordance with the Hawaii Administrative Rules §11-60.1-114(b).

If you have any questions regarding the 2026 annual fee submittal with the updated fee forms please contact Mr. Mike Madsen of my staff at (808) 586-4200. Alternatively, you may send an e-mail to [CAB@doh.hawaii.gov](mailto:CAB@doh.hawaii.gov).

Sincerely,

MARIANNE ROSSIO, P.E.  
Manager, Clean Air Branch
