CHILD AND ADOLESCENT MENTAL HEALTH DIVISION PROJECTS

**October 2020
To
Present**

Data to Wisdom:
SAMHSA System of Care Expansion Grant
Child and Adolescent Mental Health Division
State of Hawai'i Department of Health
3627 Kilauea Avenue
Honolulu, HI 96816

Duties: This project is designed to extend SOC principles statewide by transforming data from various sources of evidence to wisdom at the youth, provider, and system level. Some of the areas addressed by the project include: (a) utilizing data from a rich array of sources to guide clinical decision-making at the youth, provider, and system levels; (b) coordinating efforts efficiently across child-serving system agencies; (c) providing in-home services that are maximally effective at strengthening families and preventing out-of-home (OOH) placement; and (d) improving the state's efforts in addressing trauma. RET's major duties include: 1) ensuring SAMHSA NOMs data are collected and submitted, 2) conducting needs assessments to guide project efforts, 3) developing a local evaluation to monitor the implementation of the various components of the project, and 4) provide ongoing data feedback to the project to continually guide project efforts toward successfully meeting its goals.

Current Research Staff: David Jackson, PhD, Da Eun Suh, MA, Brian O'Hare, PhD

**October 2016
To
September 2020**

Project Kaeru:
SAMHSA System of Care Expansion Grant
Child and Adolescent Mental Health Division
State of Hawai'i Department of Health
3627 Kilauea Avenue
Honolulu, HI 96816

Duties: The focus of this 6-year project is on the development and implementation of a wraparound program to return youth from out-of-state treatment facilities and to reduce the number of such placements in the future. Duties include assisting in the development of the project's evaluation component, hiring of the Lead Evaluator, ensuring data reporting requirements are met, facilitating the appropriate and effective integration and use of both CAMHD's data and the project's data, and participating in and presenting at local and national outlets. The project's lead evaluator will be responsible for overseeing the collection of performance assessments and will also serve on the project's strategic planning workgroup, meeting monthly with this group. As a member of this workgroup, the lead evaluator will present any new findings or information that relate to the progress of the project. This 'feedback loop' will be created to ensure that communication about the current successes and challenges are known by those facilitating the planning for the project. This will also assure continuous quality improvement by providing direction, performing quality reviews, and guiding stakeholder communications related to the evaluation.

Past Research Staff: Albert Mah, MA., David Jackson, Ph.D., Brenda McDaniel, PhD., Kelsie Okamura, Ph.D.

**Project Laulima:
SAMHSA System of Care Expansion Planning Grant
SAMHSA System of Care Expansion Implementation Grant**
Child and Adolescent Mental Health Division
State of Hawai'i Department of Health
3627 Kilauea Avenue
Honolulu, HI 96816

Duties: The goal of this project is to address the needs of underserved and unserved youth who have co-occurring mental health problems and developmental disabilities. The project's lead evaluator will be responsible for overseeing the collection of performance assessments and will also serve on the project's strategic planning workgroup, meeting monthly with this group. As a member of this workgroup, the lead evaluator will present any new findings or information that relate to the progress of the project. This 'feedback loop' will be created to ensure that communication about the current successes and challenges are known by those facilitating the planning for the project. This will also assure continuous quality improvement by providing direction, performing quality reviews, and guiding stakeholder communications related to the evaluation.

**Hawai'i Data Infrastructure Grant/Behavioral Health Service
Information System (BHSIS) Contract
Federal Incentive Grant**
Child and Adolescent Mental Health Division
State of Hawai'i Department of Health
3627 Kilauea Avenue
Honolulu, HI 96816

Duties: Principle duties include implementing and maintaining the DIG dossier to assist in coordination among CAMHD project staff. Other related duties include organizing and attending project meetings between CAMHD and AMHD staff, reviewing URS tables for final submission, and participating in data systems training. Opportunities to represent CAMHD at the federal level include participating in national conference calls, and attending the Annual Joint Conference in Washington D.C. and Annual DIG/NRI Conference in Baltimore, MD. Opportunities to present include presenting National Comparison results of Consumer Survey to CAMHD PISC meeting and presenting at the Annual DIG/NRI Conference.

Current Research Staff: David Jackson, Ph.D.

Kealahou Project
Federal System of Care Grant
Child and Adolescent Mental Health Division
State of Hawai'i Department of Health
3627 Kilauea Avenue
Honolulu, HI 96816

Duties: Oversee the evaluation component of Project Kealahou, a 6-year Substance Abuse and Mental Health Services Administration (SAMHSA) funded project that will enhance CAMHD's system of care. Project Kealahou builds responsive trauma-informed practices across Hawaii's child-serving systems to address the complex needs of girls ages 11-18 with significant trauma issues. Principle duties include assisting in the development of the project's evaluation component and hiring of the Lead Evaluator, ensuring data reporting requirements are met, and facilitating the appropriate and effective integration and use of both CAMHD's data and the project's data. Participate in and present at national conferences.

Research Staff: David Jackson, Ph.D.

Substance Abuse and Mental Health Services Administration
Initiative to Reduce/Eliminate Seclusion and Restraint
State Incentive Grant

Child and Adolescent Mental Health Division
State of Hawai'i Department of Health
3627 Kilauea Avenue
Honolulu, HI 96816

Duties: Perform special evaluation studies, which include assisting instrument development, survey implementation, statistical analyses, and report writing. Duties also include collecting, coordinating, and summarizing existing literature and knowledge for informing planning activities and evaluation study designs as well as developing procedures and tools for providing analysis and feedback to information consumers.
