

# HELP US HELP YOU!

**ALL** staff members working in health care settings,  
we want to hear from **YOU!**

## Take Project Firstline's Learning Needs Assessment

<https://bit.ly/3SRidzF>

## It takes only 10 minutes.

The Hawaii State Department of Health, Mountain-Pacific Quality Health and the Centers for Disease Control and Prevention's (CDC) Project Firstline are working together to enhance health care workers' knowledge and confidence about infection prevention and control.

We invite you to take part in a [Learning Needs Assessment](#) to help guide training opportunities. It takes only 10 minutes. We appreciate your time and feedback. The assessment will open from **October 15 to December 15, 2022**. Training will commence **January 2023**. Some topics include:

- The Concept of Infection Control
- The Basic Science of Viruses
- How Respiratory Droplets Spread COVID-19
- How Viruses Spread from Surfaces to People
- How COVID-19 Spreads: A Review
- Multi-dose Vials
- Eye Protection
- Gloves and Gowns
- Hand Hygiene
- Virus Strains
