

# Young Child Wellness – Project LAUNCH – LOGIC MODEL

Version 8/15/23

Children with Special Health Needs/Maternal Child Health Branch, HAWAII STATE DEPARTMENT OF HEALTH

## RESOURCES

- State Department of Health (DOH)**
- Children’s with Special Health Needs Branch
  - Maternal and Child Health Branch
  - Family Health Services Division
  - Chronic Disease Prevention Public Health Promotion Division
  - Public Health Nursing
  - Child Adolescent Mental Health Division
- Community partners, including:**
- Hawaii Children’s Action Network
  - Department of Human Services, including Family Resource Centers, Child Care Program Office, Med-QUEST
  - Early Childhood Action Strategy
  - Executive Office on Early Learning, University of Hawaii P-20
  - Hawaii Community Foundation
- Federal Partners, including:**
- SAMHSA
  - Health Resources and Services Administration (HRSA) – Early Childhood Comprehensive Systems Grant, Pediatric Mental Health Care Access (PMHCA)
- Families, children, parents, and communities**

## STRATEGIES & ACTIVITIES

- **Strategy 1** – Conduct Screenings to Identify Possible Concerns
- **Strategy 2** – Develop family workshops to promote understanding of child wellness
- **Strategy 3** – Conduct training and equip pediatric providers to respond to children in primary care
- **Strategy 4** – Provide mental health consultation and training to child care providers
- **Strategy 5** – Establish and Convene Young Child Wellness Councils (Advisory, Community, Direct Service Providers)

## SHORT-TERM OUTCOMES

- Short-Term Outcomes Expected**
- Groundwork and infrastructure established and implemented for:
- Agreement on common definitions of terminology
  - Provider and family materials.
  - Data review
  - More providers and families aware and trained.
  - More resources disseminated.
  - Increased positive attitudes and skills, and decreased barriers, among providers and families.

### Short Term Outputs

- # of individuals who have received training in prevention or mental health promotion
- # of organizations collaborating, coordinating, sharing resources with other agencies
- # of individuals screened for mental health or related interventions
- # of individuals referred to mental health or related services
- # of people receiving evidence based mental health services

## LONGER-TERM OUTCOMES

- Long-Term Outcomes Expected**
- Increased reporting of wellness with providers knowledgeable about resources to support children, families, and individuals
  - Providers, programs, and systems are strengthened through trainings and supports and connections to resources
- Additional Long-Term Outputs Expected**
- Data system to capture data on early childhood mental health approaches
  - Professional Development/Workforce Development Training package developed inclusive of topics on Trauma informed care, resilience, mitigation of toxic stress, reflective practices, Adverse Childhood Experiences, Early Childhood Mental Health for pediatric providers and early childhood providers
- National Data Measures**
- National Survey of Children’s Health Flourishing for Young Children (6 months-5 years) (77% Meets all 4 flourishing items, 2022)
  - NSCH Family Resilience “Does this child live in a home where the family demonstrates qualities of resilience during difficult times (81.8% Hawaii 2022).”
