If you filled in a form:

  This file contains data that was entered into a form.
  It is not the form itself.

  *****

If you receive this data file:

  Please follow the directions below to process this data file using
  Adobe Acrobat Professional 7

**To view the completed form:
  1) Save this data file to your computer.
  2) Open a blank copy of the original PDF form that the form filler
  completed in order to generate this data file.
  3) In Acrobat, choose Advanced > Forms > Import Data to Current Form
  and browse for this data file.
  4) You will see the form with the data in it.
  5) To save a copy of the form with the data in it, choose File > Save As
  and save the file.

**To create a spreadsheet from one or more form data files you have received:
  1) Save the data files to a place on your computer, giving each file a
  unique name and making sure not to delete the '.xml' file extension.
  2) In Acrobat, choose File > Form Data > Create Spreadsheet from Data Files.
  3) Click the 'Add Files' button to chose the data files.
  4) After the data files are added, click the 'Create Spreadsheet' button
  to create a Spreadsheet that contains data from selected data files.
