

# 2009 ACCESSIBLE DESIGN AWARDS

## Private Design – Award of Merit

### Mauna Kea Beach Resort – Room 717

John Hara Associates Inc. & Paul Sheriff Incorporated

This suite created a unique solution in providing accessibility to the renovated Accessible Super Suite. While only one water closet and lavatory is required to be accessible this suite provided two accessible water closets. In addition, while the ADAAG requires only an accessible tub OR shower to be provided, here, both an accessible tub and shower providing guests a choice of what works best for their needs. The most unique feature of this guest room is the use of custom designed grab bars to create an aesthetically pleasing solution to a very utilitarian function.
