Driveway Before

Driveway After

This project entailed upgrading and creating an accessible pedestrian route through the "Historic Districts" of Honokaa, Hawi and Kapaau. The new routes needed to meet the design requirements of the ADA in addition to maintaining the historic character of the town. The design team worked closely with the State Historic Preservation Division and held public hearing to solicit public input. Access was provided to existing storefronts while at the same time planning construction so as to minimize disturbance to the various merchants and customers.
