¹Wage assumptions in the rate models are set at the median with the following exceptions:
 -The wage for behavior analysts is set at the 75th percentile
 -The median wage psychiatric aides used for RBTs has been increased by approximately 19 percent to estimate the cost of psychiatric technicians based on the national difference between the two occupations (since the technician wage was not published for Hawaii)

Notes

¹Weighted averages without outliers from the provider survey for full-time staff (the survey did not ask, but it is assumed 100 percent of employees receive mandatory benefits)

²BLS' 2015 National Compensation Survey (http://www.bls.gov/ncs/ebs/benefits/2015/ownership_private.htm); data reported is for private employers in the Pacific region

³Combined Social Security tax rate of 6.20% and Medicare tax rate of 1.45%

⁴Applies to first \$7,000 in wages

⁵Applies to first \$42,200 in wages in 2016

⁶BLS data for vacation and sick leave is based on national data (means) for employees with 1-5 years of experience (mean for those with 6-10 experience is 14 days of vacation and 8 days of sick leave)

⁷In addition to BLS data, other sources were considered. According to U.S. DHHS' 2015 Medical Expenditure Panel, the average premium across all Hawaii employers was \$460.17 with an employer share of \$414.83 (Tables II.C.1 and II.C.2). According to Kaiser's review of individual health insurance plans offered through the State's health insurance exchange, the benchmark plan for a 40 year-old non-smoker in Honolulu is \$262 in 2016 (<http://kff.org/health-reform/fact-sheet/analysis-of-2016-premium-changes-in-the-affordable-care-acts-health-insurance-marketplaces/>)

⁸BLS provides information for a variety of other benefits that cannot be combined
