

Hawaii Department of Health,
Developmental Disabilities Division (DDD) presents

Decubitus Ulcer Prevention

Tuesday, August 22, 2023
Time: 12 - 1 PM by Zoom
Presenter: Michael Shin, MD

Decubitus ulcers are prevalent in the I/DD population. The goal of this training is to increase awareness of the risks and signs of decubitus ulcers, prevent its occurrence and reduce morbidity and mortality from decubitus ulcers and sepsis.

Focus:

- Recognition of skin breakdown or decubitus ulcers
- Identification of at-risk conditions
- Definition of Decubitus Ulcer
- Recommended next steps for care providers
- General Management of decubitus ulcers
- Provide community resources on all islands
