

Trauma Informed Care and Persons with I/DD

Featuring Dr. Ruth Myers

Developmental Disabilities Division

presents an online training for DDD caregivers, providers, case managers, and staff.

DDD presents a webinar training on trauma informed care by Dr. Ruth Myers. Dr. Myers is a psychiatrist and national expert on supporting people with intellectual and developmental disabilities. The training will focus on how to integrate principles of trauma-informed care into services including every-day strategies for implementation. Dr. Myers will share learnings from other service systems which have transitioned to a trauma informed models of service.
