ZIKA VIRUS	0	0	0	0	0	0.00	0.00	0.00	0.00	0.00

Note:

1. ^ As of 2016, because of improved confirmatory testing, confirmed cases will be reported separately from probable cases. Probable cases are included in parentheses to maintain consistency with previous years counts.
2. For ENTEROCOCCUS, VANCOMYCIN RESISTANT and STAPHYLOCOCCUS (MRSA), Please refer to the State of Hawaii Antibioqram website (<http://health.hawaii.gov/docd/resources/reports/state-antibiogram/>). The antibiogram data is available for years from 2012 to 2015.
3. * Not nationally notifiable but state reportable diseases;
 - ** Non-pharyngitis / Group A invasive beta-hemolytic strep and Toxic Shock Syndrome (strep) due to strep;
 - *** Newly identified Hepatitis C cases for report year (not previously reported);
4. N/R stands for "not reportable" and N/A stands for "not available."
5. County level STD data include any cases with valid address information.
