## HDOH

## Vaccines For Children (VFC) Program

## 2023-24 Influenza Season

February 6, 2024

## HOUSEKEEPING

Please ensure you are muted throughout the presentation unless you are speaking.

**Reminder for QA Team:** 

Please monitor the chat for questions you may be able to answer.

#### **Reminder to Attendees:**

Today's session is being recorded. Slides and webinar recordings will be uploaded to: <u>https://health.hawaii.gov/docd/for-healthcare-providers/vaccination-resources/vaccines-for-children-program-vfc/</u>

To be added to the Hawaii VFC Program email list, please email your request to <u>HawaiiVFC@doh.Hawaii.gov</u>. In the subject line of the email, please write **EMAIL LIST.** 

## **QUESTIONS?**

- During today's webinar, please use the chat to ask your questions so the Hawaii VFC Program subject matter experts can respond directly.
- We will be answering your questions at the end of the presentation

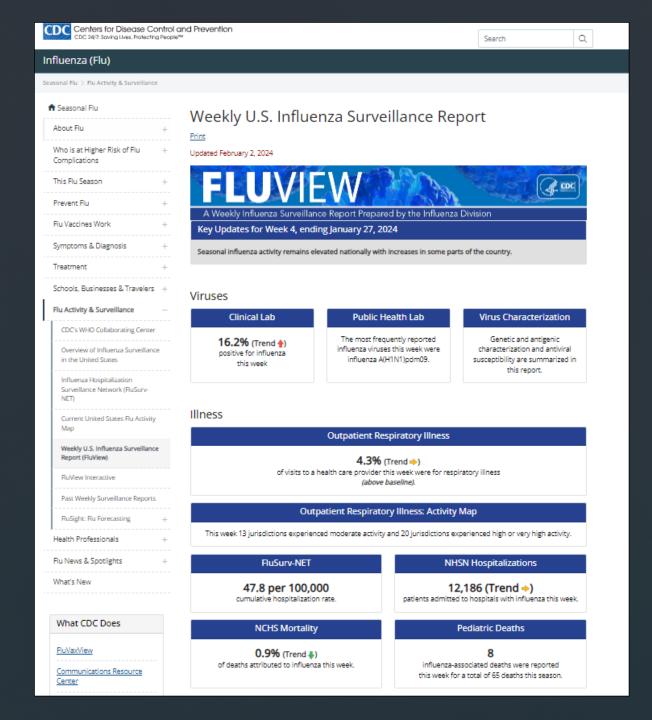

## Objectives

By the end of the presentation, providers are able to:

- Learn where to obtain the national and Hawaii-specific influenza surveillance report
- Understand VFC influenza vaccine ordering, storage requirement and borrowing guidance
- Learn about school-located vaccination clinics

# Where can I obtain weekly national influenza surveillance report?

Weekly U.S. Influenza Surveillance Report | CDC link: https://www.cdc.gov/flu/weekly/index.htm

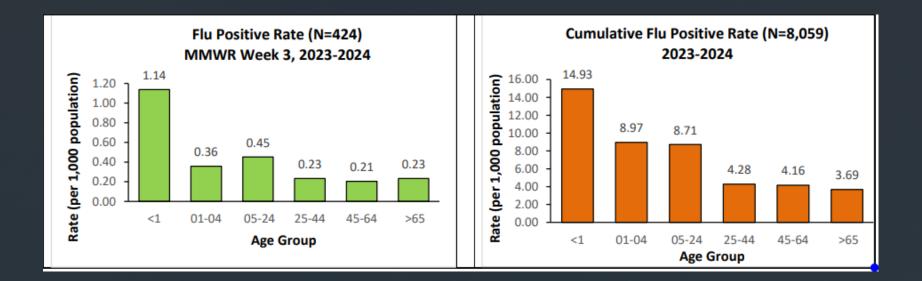

# Where can I obtain weekly seasonal influenza trends in Hawaii?

Influenza and Respiratory Reports | Disease Outbreak Control Division (hawaii.gov) link: <a href="https://health.hawaii.gov/docd/resources/reports/influenza-reports/">https://health.hawaii.gov/docd/resources/reports/</a>

#### Positive Influenza cases in Hawaii by age group

Week 3: January 14, 2024 – January 20, 2024

Although all children younger than 5 years old are considered at higher risk of serious flu complications, the highest risk is for those younger than 2 years old.

State of Hawaii, Department of Health | Ka 'Oihana Olakino Disease Outbreak Control Division

## Summary of ACIP-recommendation for 2023-24 Seasonal Influenza Vaccine

https://www.cdc.gov/flu/pdf/professionals/acip/acip-2023-24-Summary-Flu-Vaccine-Recommendations.pdf

	Birth	1 mo	2 mos	4 mos	6 mos	9 mos	12 mos	15 mos	18 mos	19–23 mos	2–3 yrs	4–6 yrs	7–10 yrs	11–12 yrs 13–15 yrs	16 yrs	17–18 yrs
Influenza (IIV4)								Annual vaco	ination 1 o	r 2 doses				Annual vaccinatio	n 1 dose on	nly
Influenza (LAIV4)												ual vaccinati or 2 doses	ion	Annual vaccination	on 1 dose or	nly

#### Influenza vaccination (minimum age: 6 months [IIV], 2 years [LAIV4], 18 years [recombinant influenza vaccine, RIV4])

#### **Routine vaccination**

- Use any influenza vaccine appropriate for age and health status annually:
- Age 6 months-8 years who have received fewer than
   2 influenza vaccine doses before July 1, 2023, or whose influenza vaccination history is unknown: 2 doses, separated by at least 4 weeks. Administer dose 2 even if the child turns
   9 years between receipt of dose 1 and dose 2.
- Age 6 months–8 years who have received at least 2 influenza vaccine doses before July 1, 2023: 1 dose
- Age 9 years or older: 1 dose

Guide for Determining the Number of Doses of Influenza Vaccine to Give to Children Age 6 Months Through 8 Years

\* The two doses need not have been received during the same season or consecutive seasons.

## What is the maximum allowed volume per intramuscular (IM) injection site for vaccinations?

Per CDC, these are the suggested volumes:

#### Deltoid:

•Average 0.5 mL •Range 0.5–2 mL

Vastus Lateralis:

•Average 1–4 mL •Range 1–5 mL

Infants and toddlers would fall at the lower end of the range, whereas adolescents and adults would generally fall on the higher end of the range.

#### Strategies healthcare providers can use to decrease the number/injection volume include:

1. Healthcare providers should always use professional judgement when administering injections. Muscle size can vary greatly from one patient to another.

2. Include an age-appropriate combination vaccine in the facility's inventory (Pentacel, Pediarix, Vaxellis).

3. Use an alternate route(other than IM) if possible. IPV (single component, NOT a combination vaccine), MMR (toddlers and infant travelers only), Varicella-containing vaccines (toddlers only), and PPSV23 (high-risk toddlers only) can be administered subcutaneously.

4. Take advantage of recommended age ranges some of the routinely recommended vaccines have. For example, the 3rd dose of HepB can be given as late as 18 months of age.

5. Educate staff.

### Influenza Vaccine Ordering

- Must be ordered using Seasonal
   Influenza vaccine order form 2023-2024
- Online ordering through HIR is unavailable due to monitoring of allocation

O VAVR

State of Hawaii Department of Health

- × For initial influenza orders during the 2023-2024 flu season, enter "0" under the Vaccine Inventory section.
- For additional influenza orders, record usage of all VFC influenza vaccines administered since your previous or initial order AND list current influenza vaccine inventory of state-supplied flu vaccines (including lot numbers and expiration dates). Please DO NOT record inventory and usage of any vaccines administered during the previous flu season 2022-2023.

SUBMIT ORDER FORM BY FAX TO (808) 586-8302 OR EMAIL TO HAWAIIVFC@DOH.HAWAII.GOV Questions? Please contact the Hawaii VFC Program at (808) 586-8300 or 1-800-933-4832 (Neighbor Islands)

### Hawaii VFC Influenza Vaccine inventory update:

70461-0323-03	Flucelvax Quadrivalent, Preservative Free * VFC-eligible: 6 months-18 years of age	<b>Seqirus</b> 0.5 mL pre-filled syringes	$\longrightarrow$	Hawaii has exhausted our allocation, zero doses available for order
			_	
66019-0310-10	FluMist Quadrivalent, Preservative Free * VFC-eligible: 2 years-18 years of age	AstraZeneca 0.2 mL pre-filled sprayer (Intranasal)	$\rightarrow$	CDC has ceased distribution for the current influenza season due to short product dating

#### Hawaii VFC Influenza vaccines currently available (as of today 2/6/2024):

NDC	SEASONAL INFLUENZA VACCINE (Tradename & Age Indication)	Mfg / Presentation
IIV		
19515-081 <b>4</b> -52	FluLaval Quadrivalent, Preservative Free * VFC-eligible: 6 months-18 years of age	<b>GSK</b> 0.5 mL pre-filled syringes
58160-0909-52	Fluarix Quadrivalent, Preservative Free * VFC-eligible: 6 months-18 years of age	GSK 0.5 mL pre-filled syringes
49281-0423-50	Fluzone Quadrivalent, Preservative Free * VFC-eligible: 6 months-18 years of age	<b>Sanofi</b> 0.5 mL pre-filled syringes

#### Expired Influenza Vaccine at the end of the season

- Expired VFC influenza vaccine should be returned in the same manner as all other VFC vaccines
- The Vaccine Loss Reporting form must be completed to initiate the return of excess expired influenza vaccine at the end of the influenza season

### Influenza Vaccine Storage

- All influenza vaccines must be refrigerated at a temperature between 2 - 8°C (36 - 46°F) upon receipt and must remain within temperature range until expiration date is reached
- Do not freeze influenza vaccines

### Influenza Vaccine Borrowing

- Borrowing should <u>only</u> be one-directional for seasonal flu vaccine. Providers may use private stock for VFC-eligible children and replace it when VFC vaccine becomes available
- Providers should **not** use VFC flu vaccine for private stock due to limited allocation

CDC has a resource center for influenza where you can download free communication and education materials to promote flu vaccination.

You can access it on this link: https://www.cdc.gov/flu/resource-center/index.htm

### **School-Located Flu Vaccination Efforts**

HDOH is conducting partnership with Hawaii schools in protecting the health of our community by serving as a facilitator to connect schools with community vaccination providers.

HDOH is currently seeking community vaccination providers to conduct community and/or school-located vaccination clinics.

If you are interested in partnering to conduct vaccination event or need further information, please e-mail or call our HDOH Community Vaccination Program Specialist:

#### **Bridget Anthony**

Email: <u>bridget.anthony.nsw@doh.hawaii.gov</u> Phone: (808) 927-9294

## School – Located Vaccination Clinics

Community Vaccination Program Specialist Stop Flu at School (SFAS) Coordinator Bridget Anthony

## DOH: Stop Flu at School (SFAS) Program

- Launched: 2007
- Statewide, school-located influenza vaccination program that offered seasonal influenza vaccines without cost to students with parent's/guardian's consent in K-8 grades
- Objective: decrease influenza disease & complications resulting from influenza in school children
- Suspended: 2021
- Resource/staffing constraints exacerbated by the COVID-19 pandemic led to suspension of SFAS

## **Next Evolution of SFAS: Promoting Flu Clinics**

- 1. Reach out to me if your interested in partnering to conduct a vaccination event
  - Bridget Anthony DOH Community Vaccination Program Specialist
  - Email: <u>Bridget.anthony.nsw@doh.hawaii.gov</u>
  - Phone: (808) 927-9294
- 2. DOH School Survey determine which schools are interested in hosting a school-located vaccination clinic
- 3. Connect the vaccine provider with schools that are interested in hosting vaccination clinics
- 4. Collaborate with vaccine provider & school to move forward with steps such as:
  - Coordinating clinic event (ie. Scheduling vaccination clinic date, etc.)
  - Consent forms

## List of Community Flu Vaccination Providers

- Kaiser Permanente
- Pharmacare
- Kalihi-Palama Health Center
- Wahiawa Health
- Waikiki Health
- CHAMPS Pediatrics

## **Completed School-Located Flu Vaccination Clinics**
