Full-Time, Temporary Civil Service position. The primary purpose of the position is to build, train, exercise, and maintain statewide capabilities to provide medical countermeasures to the population in a biological or chemical incident or disasters. The position is responsible for the planning, development, and implementation of plans, policies, and procedures related to Strategic National Stockpile and CHEMPACK (ongoing federal initiative to pre-position specific medical countermeasures) in the state primary.

Minimum Qualifications

To qualify, you must meet all of the following requirements:

EDUCATION: Graduation from an accredited four (4) year college or university with a bachelor's degree. The education or experience background must also demonstrate the ability to write clear and comprehensive reports and other documents; read and interpret complex written material; and solve complex problems logically and systematically.

SPECIALIZED EXPERIENCE: Two and one half (2 ½) years of progressively responsible professional planning experience which included the collection and evaluation of an extensive variety of physical, social, economic and environmental data, determination of public opinion and general community objectives and policies to obtain a comprehensive prospective of conditions and identify problems and opportunities in the area(s) of concern.

For the Planner IV and higher levels, the experience must show, in addition to the aforementioned experience, actual involvement in and responsibility for: (1) the integration of such information including the consideration of relationships among resources, facilities, services, needs and values for the development of policy options, alternatives for action, programs and priorities to meet goals and objectives for a given geographic area of concern; (2) advising and assisting agencies and administrators on planning concepts and methods, providing technical information and analyses for the formation of plans and programming of plans; and (3) formulation and presentation of plans and policy recommendations including alternatives and consequences of alternative actions to decision makers and at public hearings.

Such experience should demonstrate possession of the knowledge of general research sources and sources of environmental socioeconomic information, practices for public planning, and the ability to analyze facts and develop sound conclusions therefrom.
