

We want to hear from you!

**What are the biggest issues Hawai'i families face?
What are the health needs and challenges of the people you serve?**

The Hawai'i Department of Health, Family Health Services Division receives federal and state dollars to support maternal, child and family health programs statewide. We are conducting a needs assessment to better understand the needs of individuals, families and communities from across the islands.

Can you please help us by completing a brief survey?
The survey is completely anonymous.

How to take the survey:
Visit health.hawaii.gov/mchsurvey

English - Ilocano - Tagalog - 繁體中文

The DOH needs your help to better understand the challenges that make it harder for **women, pregnant persons, families, children, teens, and children and youth with special needs** to get what they need to be healthy.

If you care about the health and well-being of the people you serve, please complete this brief survey. You can help shape maternal, child and family health programs in Hawai'i!
