Make an Appointment

If you need an appointment for one of our limited services,
please call **808-733-9849**

between the hours of 8:00 AM to 9:45 AM Monday to Friday

We are doing everything we can to provide a safe work environment and ask that you do the same. Please consider your exposure to COVID-19 before making an appointment.

FACE MASK REQUIRED

Cloth masks are not appropriate PPE. A procedural mask will be provided if needed

Explanation of Limited Services

- ❖ **Linkage to Care and treatment for already diagnosed individuals**
 - Linkage to Care refers to anyone with a positive HIV diagnosis seeking HIV medical services.
 - Treatment can be offered to those who have already tested positive for Chlamydia, Gonorrhea, or Syphilis

- ❖ **Treatment for those with STI symptoms – No STI testing**
 - This is anyone who has not been diagnosed but is experiencing symptoms that may indicate infection with Chlamydia, Gonorrhea, or Syphilis
 - Symptoms include dysuria; vaginal, urethral discharge; ulcers to the mouth, genitals, or rectum; rectal discharge; pain on defecation; or urge to defecate frequently
 - There will be no testing for Chlamydia or Gonorrhea, during this time. Only treatment for these STIs will be provided

- ❖ **Select services for contacts of confirmed STI and HIV cases – No STI testing**
 - Anyone who has been informed of a potential exposure to Chlamydia, Gonorrhea, or Syphilis, will be offered treatment
 - Anyone who has been informed of a potential exposure to HIV, will be offered a rapid HIV test
 - There will be no testing for Chlamydia or Gonorrhea, during this time. Only treatment for these STIs will be provided

- ❖ **HIV rapid testing and syphilis testing for high risk individuals only**
 - A high risk individual is anyone mentioned above, or anyone who has engaged in risky behavior with another high risk person. This includes men who have sex with men, sex with a transgender, sex with an injecting drug user, and sharing needles or injecting drugs.
