

State of Hawaii Department of Health  
Harm Reduction Services Branch  
**Hawaii Pre-Exposure Prophylaxis (PrEP) Provider Directory**

**Notice to Patients:** This directory includes a list of health care providers who have expressed willingness to screen, prescribe, and monitor PrEP for appropriate HIV negative patients at high risk for becoming infected. These providers are listed as a resource for those individuals whose primary care provider is unable or unwilling to prescribe PrEP to HIV negative patients at high risk for becoming infected. These providers are available for PrEP only at the clinic or institution listed, regardless of other affiliations. Only the providers listed have notified us of their willingness to see patients for PrEP. PrEP prescriptions are at the discretion of the health care provider. Insured patients who have a pharmacy co-pay can sign up and print the activated Truvada® co-pay card from the following website: <https://www.gileadadvancingaccess.com/copay-coupon-card>. Most patients using the co-pay card will have no out of pocket cost for Truvada®. Patients who do not have insurance coverage for medications may be able to obtain medication through Gilead's Truvada® Patient Assistance Program for PrEP by filling out the application via the following link: [https://services.gileadhiv.com/content/pdf/gilead\\_enrollment\\_form.pdf?utm\\_source=truvada\\_prep&utm\\_medium=referral](https://services.gileadhiv.com/content/pdf/gilead_enrollment_form.pdf?utm_source=truvada_prep&utm_medium=referral). The application requires a signature from the prescribing physician.

**Notice to Providers:** By electing to be listed on this PrEP Provider Directory, you are indicating that you are willing to: (1) evaluate patients for PrEP; (2) prescribe PrEP to persons considered at high-risk for HIV infection, when you determine PrEP to be appropriate; and (3) monitor patients on PrEP in accordance with CDC PrEP Guidelines. CDC PrEP guidelines and other recommended resources are available on the HRSB website at: <http://health.hawaii.gov/harmreduction/hiv-aids/pre-exposure-prophylaxis-prep/hawaii-prep-physician-directory/>. The purpose of this voluntary directory is to enhance our community with available resources for PrEP access to those HIV-negative individuals at high risk for becoming infected. Please know you may elect to have your name removed from the directory at any time. Should contact information change under your listing, please notify Alexis Charpentier of any changes at 808-733-4383 or via e-mail at [Alexis.Charpentier@doh.hawaii.gov](mailto:Alexis.Charpentier@doh.hawaii.gov).

**Additional guidance for healthcare professionals on indications for and proper implementation of PrEP** is available from an expert team of HIV clinicians. Contact PrEpline at 855-448-7737 between the hours of 5 AM and 12 PM (HST). This free expert advice on PrEP via the Clinician Consultation Center is available to physicians nationwide. The Clinician Consultation Center is part of the US Health Resources and Services Administration (HRSA) AIDS Education and Training Centers (AETC) Program, and was made possible through supplemental funding from CDC. Consultation services are provided by physicians, nurses, and clinical pharmacists affiliated with the University of California, San Francisco.
