

## State of Hawaii Department of Health

### Harm Reduction Services Branch

### Hawaii Pre-Exposure Prophylaxis (PrEP) Provider Directory

This directory includes a list of health care providers who have expressed willingness to screen, prescribe, and monitor PrEP for appropriate HIV negative patients at high risk for becoming infected. These providers are listed as a resource for those individuals whose primary care provider is unable or unwilling to prescribe PrEP to HIV negative patients at high risk for becoming infected. These providers are available for PrEP only at the clinic or institution listed, regardless of other affiliations. Only the providers listed have notified us of their willingness to see patients for PrEP. PrEP prescriptions are at the discretion of the health care provider.
