

DOH HEER Non-Emergency Environmental Services RFP
Questions from AECOM

(as of June 27, 2016)

- 1) Since the initial March 2016 DOH HEER Non-Emergency Services was canceled, does it mean that the responses to questions on the initial RFP were also canceled? If so, we would like to repeat the questions we submitted for the initial solicitation.
- 2) Para 2.3 Scope of Work: First paragraph, please define technical experts by education, years of experience, certification or profession registration. This will allow the HEERS Office and the qualified firms to know the criteria requirements that will be considered for “technical experts”.
- 3) Para 2.3 Scope of Work: Please define unexploded ordnance expertise.
- 4) Para 2.3.3 Professional Expertise: Is there a requirement, education, years of experience, certificate or professional registration for the professional expertise requirements?
- 5) Para 2.3.2 b: What constitutes a “subject matter” expert? AECOM has the ability to furnish the personnel for the listed categories. We would like insure our personnel that we obtain, fits within the definition of the HEER office.
- 6) Para 2.3.2 c: Similar comment to item 5 above.

DOH HEER Office Responses to comments June 27th, 2016
