

**HAWAII DEPARTMENT OF HEALTH  
HAZARD EVALUATION AND EMERGENCY RESPONSE OFFICE  
FAST TRACK CLEANUPS  
SITE SCREENING FORM**

*Fast Track Cleanups* is a HDOH HEER Office program designed to enable landowners or other private parties to conduct a voluntary investigation or cleanup under a simple agreement with HDOH, without requiring multiple work plan and interim report submittals, while still receiving concurrence on the final site status of no further action. The focus of FTC is to streamline and expedite the assessment, cleanup, and closure process at removal action sites.

The first step of the process requires that the applicant complete this site screening form. HDOH will use the screening form to confirm site eligibility and to schedule a scoping meeting with the applicant. Eligibility is not determined by the phase or status of the investigation or cleanup; sites can enter FTC during any phase of the investigation or cleanup process.

**GENERAL SITE INFORMATION**

<b>Participant Name</b>	
<b>Phone</b>	
<b>Email</b>	
<b>Site Name</b>	
<b>Site Address</b>	
<b>Site Status/Background</b>	
<b>Reason for Entering FTC</b>	
<b>Goal for Exiting FTC</b>	
<b>Estimated Start Date</b>	
<b>Estimated Completion Date</b>	

FTC is intended to be inclusive of most sites; the eligibility criteria on the following page will enable HDOH to determine if the site is eligible for FTC. The following sites are not eligible for FTC:

- A site listed or proposed to be listed on the National Priorities List (NPL) pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA);
- A site with respect to which an order or other enforcement actions has been issued or entered under CERCLA and is still in effect;
- A site where the United States Coast Guard has issued a federal Letter of Interest;
- A site that is subject to corrective action under Subtitle C of the Resource Conservation and Recovery Act (RCRA) or Chapter 342J;
- A site that is under the jurisdiction or oversight of the HDOH Solid and Hazardous Waste Branch, including the UST Program.
- A site that poses an imminent and substantial threat to human health, the environment, or natural resources as determined by HDOH.

## SITE ELIGIBILITY FACTORS

Eligibility Factors	Yes	No	Unknown
Is there a known or suspected contaminant release?			
Is an investigation or cleanup already governed by a current state, local, or federal agency?			
Is contamination known to or likely to cross property boundaries?			
Does soil contamination have a high likelihood of migrating to surface water or groundwater?			
Is groundwater contamination considered significant?			
Is the site adjacent to sensitive communities or residences?			
Is the site adjacent to sensitive ecological receptors?			
Would site cleanup decisions have a significant impact on the local community and thereby require public review or comment?			
Does the site has sensitive current or future land use, such as schools, day care, or unrestricted access such as a public recreational area?			

**Additional Comments or Notes:**

Each of these conditions will be addressed and assessed on a case-by-case basis. HDOH will contact the applicant no later than 1 week following submittal of this screening form to schedule a scoping meeting to discuss site eligibility, project goals, objectives, technical resources and guidelines, and schedule.
