Oceania RRT Members and Observers:

You are cordially invited to attend the next Oceania Regional Response Team meeting in Honolulu, Hawaii on Tuesday, June 7, 1994. The meeting will begin at 8 a.m. in the ninth floor conference room of the Federal Building at 300 Ala Moana Blvd. The meeting has been compressed into one day to allow for the National Preparedness for Response Exercises Program (NPREP) exercise in Honolulu on June 8 and the exercise evaluation session on June 9.

Enclosed is the tentative agenda for the RRT meeting. If you have any corrections or additions, please contact Don Anthony at (415) 744-2208.

I look forward to seeing you at the next meeting.

Sincerely,

Michael Ardito for

Kathleen G. Shimmin
U.S. EPA, Region IX
Co-Chair, Oceania RRT

Time Table of HSERC Activities Sorted by Agency

Task	Agency	Status
Appoint a local emergency planning committee (LEPC) to serve each of the districts.	HSERC	Completed.
Adopt bylaws and budget.	HSERC	DOH researching bylaws.
Review local emergency response plans annually, making recommendations for any needed changes.	HSERC	Annually.
Ask for further information from facilities, at the request of the state or another party or at its own discretion, about a particular chemical or facility.	HSERC	Upon request.
Provide the forum for coordinating all Title III information, and assist in understanding and communicating associated chemical risks.	HSERC	Ongoing.

Time Table of HSERC Activities Sorted by Agency

Task	Agency	Status
Provide strong leadership, coordination, technical assistance, and training, work closely with LEPCs to help identify their specific needs and carry out their programs, and use its knowledge and expertise to help all affected groups, organizations and individuals meet their responsibilities under the Act.	HSERC	Ongoing.
Coordinate proposals for and distribution of training and planning grant funds.	Civil Defense	See Civil Defense calender.
Coordinate and supervise the activities of the local committees, through regular communication and contact.	DOH	Ongoing.
Recommend suitable examples of bylaws.		By 06/07/94.
Develop information packet for new LEPC members.		By 06/30/94.

Time Table of HSERC Activities Sorted by Agency

Task	Agency	Status
Establish uniform information access for HSERC and LEPC members.		By 06/01/95.
Notify EPA of all facilities in the state that are either covered under emergency planning requirements, or have been designated as subject to these requirements by the SERC or the governor.	DOH	Annually.
Receive reports and notifications required by the legislation: material safety data sheets (MSDSs), or lists of MSDS chemicals, emergency and hazardous chemical inventory forms, and notices of emergency releases (this information also goes to the LEPCs).	DOH	Annually.
Make reports available to the public, and use them in developing and enforcing state environmental and public health programs.	DOH	As requested.
Establish procedures for receiving and processing public requests for information collected under the Act.	DOH	By 08/30/94.

Time Table of HSERC Activities Sorted by Agency

Task	Agency	Status
Request information from the EPA on health effects of chemicals that EPA has agreed to designate "trade secret," and ensure that this information is available to the public.	DOH	As needed.
Take civil action against facility owners or operators who fail to comply with reporting requirements.	DOH	As needed.
Insure that its state programs are integrated with the federal law in order to strengthen enforcement.	DOH	As needed.

FINAL MEETING SUMMARY

HAWAII STATE EMERGENCY RESPONSE COMMISSION

Friday, August 30, 1993
9:00 am to 12:00 pm

Department of Health
Kinau Hale Board Room, 1st Floor
1250 Punchbowl Street
Honolulu, Hawaii 96814

HSERC Commission Members and Representatives

John C. Lewin, M.D., Chair, HSERC, DOH
Don Gransback for Major General Richardson, DOD
Gerald Kinro for Yukio Kitagawa, BOA
Russell Charlton for Dayton Nakanelua, DLIR
Tom Smyth for Mufi Hannemann, DBEDT
Yingfan Xu for Keith Ahue, BLNR
Chris Takeno, Honolulu LEPC Coordinator
Clifford Ikeda, Kauai LEPC Co-Chair
B.Z. Siegel, University of Hawaii, School of Public Health

Other Attenders

Jay Sasan, Hawaii County Safety Office
Carter Davis, Honolulu Fire Department
Joseph Blackburn, Maui Fire Department
Jim Vinton, BHPPA(H)
Richard Teasne, USCG MSO Honolulu
Laura Young, DOH, HEER
Steve Armann, DOH, HEER

I. CALL TO ORDER

A. Opening Remarks/Announcements

The 17th meeting of the HSERC was called to order at 9:15 am on August 30, 1993.

Dr. Lewin requested that HSERC Commission members submit official designation letters for their representatives. The designated representative shall have all the powers and authorization of HSERC Directors.

B. Discussion/Approval of Minutes from Meeting #16

One correction on the minutes of Meeting #16 was noted and approved.

II. UPDATE BY THE ATTORNEY GENERALS OFFICE

There was no outstanding business for the Attorney General.

III. REVIEW OF THE REIMBURSEMENT POLICY FOR THE ENVIRONMENTAL RESPONSE FUND (ERRF)

Steve Armann reported on the status of the reimbursement policy for the ERRF. Joe Blackburn's request for reimbursement is being reviewed and will set a precedent for cost recovery in Hawaii. Steve Armann estimated that the draft policy will be available by the next HSERC meeting. There is only a limited amount of money in the ERRF, and don't want to exhaust the fund leaving nothing for emergency responses. Emergency response expenditures are many times not recoverable because responsible parties cannot be identified.

The HEER office would like to develop a program and fund just for cost recovery purposes. In order to expend funds from the ERRF, the costs must be recoverable from responsible parties, the net effect on the fund should be zero. Dr. Lewin asked how fast can the fund be depleted. At this time there is about \$140,000 in the ERRF but litigation settlements should provide substantial contributions to the ERRF, bringing the balance to approximately \$500,000. Dr. Lewin stated that the underlying public health purpose of the fund is for a clean and protected environment and if more money needs to be appropriated from the legislature, the legislature should be approached.

Captain Joe Blackburn's cost recovery item concerns included personnel costs with regard to overtime, travel, and medical monitoring. Captain

Carter Davis raised his concerns regarding an outer island response to an incident by the Hazmat team, thus necessitating the recall of personnel in Honolulu to provide coverage in Honolulu.

Steve Armann stated that the ERRF is available for emergency response actions to hazardous substance releases. The Oil Tax Fund, established under Act 300, is restricted to petroleum responses only.

Captain Joe Blackburn asked if provisions could be made for training costs from the ERRF.

Civil Defense has received 40% of \$62,000 of HMTA grants that will be used for training and planning. Honolulu Community College was contracted to provide training to local and state government employees, 80% of the \$100.00 enrollment fee will be reimbursed to the agency when the course is successfully completed by the trainee. Since this course is being offered at Honolulu Community College, enrollment is open to the private sector however, reimbursement will only be for employees of local and state government representing their respective agencies.

IV. LEPC NOMINATION REVIEW/APPOINTMENT

Motions to appoint the nominations to the LEPC by the respective county mayors of Kauai, Honolulu and Hawaii were carried.

A motion to defer Maui County LEPC nominations until awareness and education can be conducted by Captain Joseph Blackburn with Mayor Cockett Lingle and her staff was also carried.

Any changes in nominations must be approved by the HSERC. Jim Vinton of BHPPA (H) asked if the chairman of the LEPC must be a member of the LEPC. Steve Armann stated that the LEPC chairman must be from the LEPC and cannot be appointed by the Mayor or the head of the lead agency. The Mayor of each county is asked only to designate a lead agency for administrative support and funding purposes.

V. Training Needs

Captain Blackburn was interested in State funding a Specialist course for Response to Hazardous Materials, much of his staff is not trained. There has been a lag in offering courses. Don Gransback said a lack of instructors may be contributing to the delay. Carter Davis stated that instructors are available, but there is only one person in charge of training at State Civil Defense. Don Gransback requested assistance from Dr. Lewin in establishing two training positions at State Civil Defense. These training

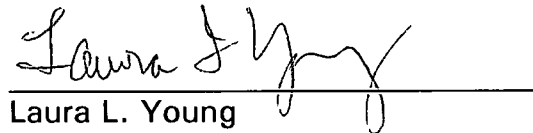

positions have been established by the Department of Personnel Services since the transfer of training responsibilities two years ago. A letter will be sent to Sharon Miyashiro of the Department of Personnel Services supporting the establishment of the two training positions.

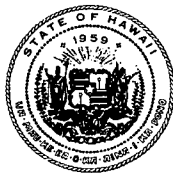

VI. Schedule for HSERC Meeting #18

The next meeting is tentatively scheduled for Monday, November 15, 1993.

The 17th meeting of the HSERC was adjourned at 10:45 am, August 30, 1993.

Respectfully submitted,

Laura L. Young

Jim Vinton, BHPPA(H)
Liz Galvez, DOH-HEER
Blake Vance, Hawaii Sugar Planters Association
Bill Perry, DOH-HEER
Alden Kang, State Civil Defense
Yingfan Xu, DLNR
Carter Davis, Honolulu Fire Department
Michael Choy, HECO
Laura Young, DOH-HEER

I. Call to Order

The 18th meeting of the HSERC was called to order at 9:15 am on November 17, 1993 by
Dr. Anderson

Announcements

The current names and addresses of the Local Emergency Planning Committees were distributed. The lists should be used to update the HSERC Manual, if additional copies are needed, contact Laura Young at the HEER Office.

A training team from EPA Region IX will be providing two EPCRA training sessions, one to focus on federal facility requirements under Executive Order 12856 and the other to industries already required to report under EPCRA. Each session will last two days. They are tentatively scheduled for mid-March.

The draft meeting summary from HSERC meeting #17 was reviewed and approved with noted changes.

II. Update by Attorney General's Office

Kathy Ho was off island and could not attend the HSERC meeting, there were no outstanding issues and no new issues were brought up for the Attorney General's attention.

III. Hazardous Materials Transportation Act Update

Alden Kang of State Civil Defense presented an update of the HMTA grant. The application requested \$62,885 and a full allocation was received. We are in the first year of a six year grant. If the requirements of the grant are met annually, funding will continue. The grant has two sections. The planning section received \$30,235 to be implemented by the Department of Health, the monies would fund a planner to work with LEPCs. The training section of the grant received \$32,650. State Civil Defense is working with Hawaii Community College to offer Initial Responder to Haz Mat Incidents on Oahu. Training courses will also be scheduled for the outer islands.

The courses have been offered at HCC for several months with only one course being conducted, the others were canceled due to lack of registration. At least 9 people are needed for the course to be conducted. There are an estimated 12,000 state and county employees who need this level of training, the grant can pay for 400 students per year, in 6 years 2,400 workers could be trained.

The departments must enroll their workers and pay the \$100.00 registration fee. Upon completion of the course a certificate will be issued to the student. Present a copy of the certificate and proof of payment to Mr. Kang's office at State Civil Defense and \$80.00 will be reimbursed. Only 80% is reimbursed because a 20% soft match is required.

Chris Takeno stated that the payment/reimbursement system was awkward and that the reimbursed funds did not go directly back to the programs that paid for the training.

Captain Blackburn requested that future training courses be offered to meet the needs of specific programs, such as the fire department's need for chemistry courses instead of initial responders course.

Dr. Anderson suggested working out other payment system options and announcing the class through mail outs to reporting EPCRA facilities, the LEPC and the HSERC members to increase registration.

IV. Cost Recovery Policy

A review of the Cost Recovery Policy was presented by Laura Young. A draft of the policy was being reviewed by the Attorney General's Office and the Environmental Resource Office.

The HEER office should be notified of all chemical releases, a State-On-Scene (OSC) will assist the responding agencies, assistance and recommendations from the OSCs will be very important in cost recovery procedures. The applications for cost recovery will also be reviewed by the Director of Health and recovery costs are also at the Director's discretion.

If a release or incident occurs on an neighbor island contact an OSC, the OSC will coordinate a response effort. They will also respond to requests by local/county emergency response agency. An OSC is on call 24 hours a day, during non-office hours they can be reached through the State Hospital at 247-2191.

V. LEPC Nominations/Appointment

Mayor Linda Crockett-Lingle submitted nominations for the Maui County LEPC. All nominations were approved and appointed by the HSERC.

Dr. Anderson stated that nomination for additional members to any of the LEPC can be submitted for appointment at future HSERC meetings.

VI. Next HSERC Meeting

The HSERC will meet after the close of the 1994 legislative session.
