## TGM

Welcome to the HEER Office Technical Guidance Manual Homepage!

**TECHNICAL GUIDANCE  
 MANUAL (TGM) FOR THE  
 IMPLEMENTATION OF THE  
 HAWAII STATE  
 CONTINGENCY PLAN**

The HEER Office Technical Guidance Manual (TGM), also called the Hawai'i HEER TGM, provides in-depth guidance on environmental assessment and cleanup under Hawai'i Revised Statutes, 128D.

The HEER Office TGM has been updated and moved to a new web address maintaining its electronic format. See [Log of TGM Updates](#) for details when each section of the TGM was posted or updated for use.

The TGM contains recommended technical approaches and procedure, but is considered guidance only, not regulation. Property owners or environmental consultants can propose alternate technical strategies or methods to the HEER Office, as long as they can be demonstrated to adequately address the site investigation and/or site cleanup objectives.

Please contact the HEER Office to report releases of hazardous substances or to discuss technical questions related to reporting, release responses, or other requirements.

Office of Hazard Evaluation and Emergency  
 Response  
 Hawai'i State Department of Health  
 2385 Waimano Home Road  
 Pearl City, Hawai'i 96782
