“Manufactured hemp product retailer” or “retailer” means a person selling manufactured hemp products to consumers and includes the person’s agents and employees.

“Manufactured hemp product distributor” or “distributor” means a person selling manufactured hemp products to a manufactured hemp product retailer and includes the person’s agents and employees.

“Temporary Event” means any event, market, fair, festival, or other gathering where manufactured hemp products are offered for sale to consumers that occurs only once or on an occasional basis, less frequently than once per month. Sale of manufactured hemp products at events that occur on a daily, weekly, or monthly basis, at the same location, such as farmers markets, is considered to take place at a retail location rather than a temporary event.
