Dear Postal Customer:

The United States Postal Service handles and delivers 206 billion pieces of mail per year – over 560 million per day. In order to process such large volumes quickly and accurately, high-speed electronic scanning equipment is employed throughout our system. This technology is most effective when correct and complete addresses are used.

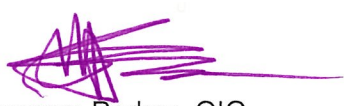

The complete and correct address for your location is listed below. This may be different from or contain more information than the address you are accustomed to using. We ask that you begin using this address as soon as possible or by May 13, 2018.

**State Of Hawaii  
Solid and Hazardous Waste Branch  
2827 Waimano Home Rd #100  
Pearl City, HI 96782**

Please make sure all mail sent to you displays the EXACT address as it appears above. Also, ensure that you place your return address on an envelope or package every time you do a mailing.

Mail received without the secondary address will be returned Effective May, 13 2018 as insufficient address. If you have any questions concerning your address as shown above, please contact me.

Thank you for your cooperation.
