Department of Public Safety:
Additional OCCC Inmates Test Positive for COVID-19

Thirty-eight (38) additional O’ahu Community Correctional Center (OCCC) inmates have tested positive for COVID-19. The latest cases were announced today. This brings the total number of inmates who have tested positive in Hawai’i to 124. It was announced earlier this week that a total of 23 staff members had also tested positive. PSD coordinated with DOH to conduct mass testing of all OCCC inmates in each of the 19 individual housing units at OCCC.

OCCC operations/maintenance staff and work lines have increased cleaning of all housing and intake modules. A deep cleaning vendor is scheduled to come in and perform sanitation services. PSD will continue to closely monitor the spread of COVID-19 and make additional operational and preventative decisions as the situation evolves. For more information on PSD’s planning and response efforts:

Hawai'i Emergency Management Agency: **Residents Asked to Complete COVID-19 Survey**

The ongoing COVID-19 pandemic has taken a toll on many residents in the State of Hawai'i. To assure that the needs of the people are identified and addressed appropriately, HI-EMA is conducting a survey to determine what residents see as the most important issues the state is facing. One adult per household is asked to fill out the survey, which takes about 10 minutes to complete. To fill out the survey:

<http://go.hawaii.edu/3P6>

New PSAs Aim to Inform Residents about COVID-19

HI-EMA has been producing and promoting short, informative videos about the battle with COVID-19 in an educational series titled, 'FYI.' Each episode features an expert from HI-EMA's Emergency Support Function (ESF-8) as they explain different aspects of the virus, transmission, prevention, and community health aspects in simple terms. All the videos run under two minutes and are closed-captioned. To access the videos:
