**State & Federal Team Deploys to Lāna'i Next Week for Support**

DOH continues to work closely with healthcare providers on Lāna'i to support community outreach, testing and contact tracing. Two (2) new cases of COVID-19 were added to the islands' counts today for a total of 98 confirmed coronavirus cases. Next week a team of DOH staff and Centers for Disease Control & Prevention (CDC) staff will visit Lāna'i to provide additional on-site support. This group of medical experts plans to identify priority groups for repeat testing and to work with local providers on best ways to implement serial testing. They'll provide consultation to the school, hospital and businesses on COVID-19 best practices for prevention and mitigation. And the team will provide materials for community education and provide additional outreach and contact tracing activities as needed.

Hawai'i recorded one additional COVID-19 death. A Hawai'i island man, in the 70-79 year-old age group had underlying conditions and was in the hospital. His death brings the total count to 216 since the beginning of the pandemic.

**Hawai'i Emergency Management Agency:  
 Expanded COVID-19 Dashboard Coming on Monday**

HI-EMA in collaboration with DOH launches an expanded COVID-19 dashboard next Monday, November 2 at 3 p.m. This expanded dashboard will update daily at 3 p.m. and provide access

to daily COVID-19 case counts, seven-day case averages, positivity rates, and the number of deaths caused by COVID-19. It also features a county-by-county summary of hospital resources, including the availability of ICU beds and ventilators. The expanded dashboard will also be accessible on mobile devices.

“In addition to virus data, this new COVID-19 dashboard will provide a single site where users can find data on Hawai‘i’s economy, as well as additional information on travel, tourism and how hospitals are coping with the pandemic,” said HI-EMA Administrator Luke Meyers. HI-EMA will maintain and update the dashboard, which launched in early September, with content provided by DOH and its partners in the medical profession.

“What began as a health dashboard is now evolving and maturing as we continue our fight against COVID-19,” said DOH Director Libby Char. “Measuring our progress, preparing, and planning for our entire state involves much more than counting positive cases. We appreciate HI-EMA’s work to enhance and maintain the data dashboard.” The new dashboard can be found at <https://hawaii-covid19.com/dashboard/> which is linked to the state’s COVID-19 website <https://hawaii-covid19.com/>.

### **Over 600 Shelter Animals Airlifted to the Mainland in Historic Pet Rescue Flight**

Here’s some good news to end your week. More than 600 shelter pets from Hawai‘i were airlifted to the mainland this week to find new homes. HI-EMA assisted Greater Good Charities and Wings of Rescue to pick up the cats and dogs from pet shelters on five islands, board them on “Paws Across the Pacific,” to fly to the mainland. CEO of Greater Good Charities, Liz Baker, said, “Pet shelters in Hawai‘i are in a COVID-19 crisis. Normal operations have been affected by months of shut down, economic downturn, limited hours, and routine flights to mainland halted. The Paws Across the Pacific flight is urgently needed to make space in Hawai‘i’s shelters for at-risk pets who otherwise wouldn’t be able to receive necessary care to survive.”

The pets have already been picked up, and are going to shelters in Washington state, Oregon, Idaho, and Montana. To view more:
