## **DOH LAUNCHES ONLINE PUBLIC PORTAL ON NEW HAWAII STATE IMMUNIZATION SYSTEM**

25-110

### **FOR IMMEDIATE RELEASE**

September 24, 2025

HONOLULU — Do you need an official copy of your immunization record?

A new online public portal from the Hawai'i Department of Health (DOH) Immunization Branch offers a free, secure way for individuals, parents and legal guardians to access, print or download official immunization records. This official record can be used as proof of immunization for school, daycare, work, or travel.

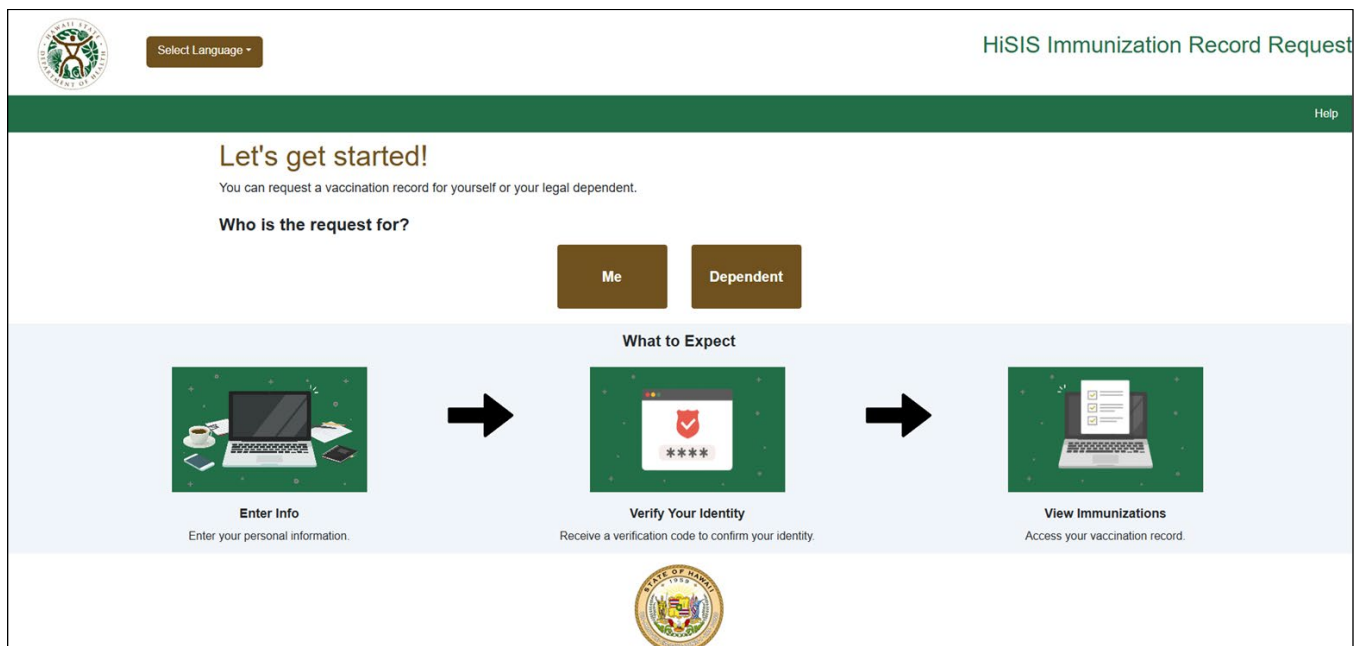

The public portal is part of the Hawai'i State Immunization System ([HiSIS](#)), which launched in June. HiSIS is a secure, confidential, cloud-based environment that stores the immunization records of children and adults. Healthcare providers submit the information to the HiSIS registry.

Immunization information systems help medical practices and other healthcare providers keep patients of all ages up to date on vaccinations. They also support healthcare providers and public health departments by collecting data on the immunization status of our communities.

To access these records, visit the [HiSIS Public Portal](#) and submit a request by entering:

- First and last name
- Birthday
- Gender
- Email address and/or mobile phone number

The email address or phone number you enter must match what is listed on the patient's HiSIS profile. If you are having issues accessing your record, please contact your healthcare provider to review and verify your information at HiSIS. There is no cost to sign up or to download your records.
