

RAPID Hawaii: A Statewide Collaboration on Acute Stroke Care

Current Update: February 19, 2021

Wahiawa General Hospital:

Currently live with RAPIDai and Queen's is receiving images.

Castle Medical Center:

Currently live with RAPIDai and Queen's is receiving images.

Kaukini Medical Center:

Awaiting RAPID server installation, which was delayed due to upgrades occurring on the hospital imaging system (PACS) which are needed so the local radiologist, neurologists, and other physicians can review the RAPID images on their local system. We met with the Chief Medical Officer and Radiology Director to expedite implementation.

Kauai Veterans Memorial Hospital:

KVMH is installing the RAPID server and completing staff training. IschemaView is working with the site on VPN and server configuration.

Hilo Medical Center:

HMC is installing the RAPID server. IschemaView is working with the site on VPN and server configuration. Staff training completed.

Kona Community Hospital:

KCH is installing the RAPID server and completing staff training. IschemaView is working with the site to install the server next week.
