

- Purpose of this proposal is to:
 - (1) update the existing BrainSpace concussion education and awareness curriculum that targets the high school population,
 - (2) develop a separate BrainSpace concussion education and awareness curriculum that targets youth leagues and recreation organization, and
 - (3) develop a BrainSpace concussion education and awareness curriculum for sports officials.
- Proposal is requesting funding of \$20,000. Funding will be used to produce/ edit videos and development of website platform.
- Length of proposed project is one year
- BrainSpace is a free online concussion education and awareness curriculum available to coaches, parents, athletes, and educators.
- BrainSpace will help athletic teams, sports leagues, and recreational organizations meet the annual concussion education and awareness requirements of Hawaii concussion law, ACT 262.
- BrainSpace will provide parents, coaches, officials, and athletes with information and resources on the management and prevention of concussion and also strategies to address attitudinal changes toward concussions
