4 000	<p>Initial Comments</p> <p>A relicensure/complaint investigation survey was conducted by the Office of Health Care Assurance (OCHA) on 09/19/2022 to 09/23/2022. The facility was not in compliance with 42 CFR 483 Subpart B. Three facility-reported incidents were investigated (ACTS #HI9622 and #HI9744 were unsubstantiated, and ACTS #HI9443 was substantiated with deficiency). One complaint was investigated (ACTS #HI9126) and was unsubstantiated.</p> <p>Survey date: 09/19/2022-09/23/2022</p> <p>Census: 264</p> <p>Sample size: 38</p>	4 000		
4 133	<p>11-94.1-29(d) Resident abuse, neglect, and misappropriation</p> <p>(d) The facility shall maintain a record that all alleged violations were thoroughly investigated, and shall take all reasonable steps to prevent further abuse while the investigation is in progress.</p> <p>This Statute is not met as evidenced by: Based on record review, interviews, and facility policy review, the facility failed to ensure an injury of unknown origin was thoroughly investigated for 1 (Resident #423) of three sampled residents reviewed for abuse.</p> <p>Findings included:</p> <p>Review of a facility policy titled, "Freedom from Abuse, Neglect and Exploitation Facility</p>	4 133	<p>Resident #423 has been discharged from facility.</p> <p>Current residents have the potential to be affected by this practice. An audit was conducted on 10/14/22 to review facility reported incidents in the past 30 days to validate they were appropriately investigated</p>	10/17/22

4 133	<p>Continued From page 1</p> <p>Requirements for Reporting and Investigating Allegations," revised 05/2018, revealed, "4. The facility will report allegations of abuse, neglect, exploitation or mistreatment, including injuries of unknown source and misappropriation of resident property within two (2) hours of the allegation being made if the allegation involves abuse or results in serious bodily injury. 5. If the allegation does not involve abuse and does not result in serious bodily injury the facility will report the allegation within 24 hours." The policy also indicated, "The facility Administrator / designee will conduct thorough investigations of alleged violations and report the findings to the State agency within 5 working days of the allegation."</p> <p>Review of a facility policy titled, "Freedom from Abuse, Neglect and Exploitation Abuse Policies," dated 11/2017, revealed, "Investiation 1. Each allegation of abuse will be thoroughly investigated in an effort to determine if abuse, neglect, exploitation and/or mistreatment occurred. The investigation will attempt to identify any person involved or who may have knowledge of the investigation. 2. The investigation will include interviews with the alleged victim, alleged perpetrator, witnesses, and other [sic] who may have knowledge of the allegations, to the extent possible. 3. The administrator / designee will be responsible for the investigation of allegations." The policy also indicated, "6. A record of the investigation will be maintained, including interviews with involved people."</p> <p>Review of an "Admission Record" revealed Resident #423 had diagnoses which included fracture of the fourth lumbar vertebra (a bone that is part of the spinal column in the lower back), Alzheimer's disease, cognitive communication deficit, end stage renal disease (ESRD), and</p>	4 133	<p>RNC provided education to Administrator and DON about completing a thorough investigation on 10/11/22. RNC/designee will be notified of state reportable incidents and abuse allegations. RNC will validate that facility has completed thorough investigation(s).</p> <p>RNC/designee will review abuse investigations for 3 months to validate facility has conducted thorough investigation(s). Findings will be reported to the facility's QAPI committee monthly x3 months. If needs are identified, audits will be replicated until compliance is achieved.</p>

4 133	<p>Continued From page 2</p> <p>pain.</p> <p>Review of a five-day Minimum Data Set (MDS), dated 04/21/2022, revealed Resident #423 had a Brief Interview for Mental Status (BIMS) score of 4, indicating severe cognitive impairment. The MDS indicated the resident required extensive assistance with bed mobility and transfers and had not fallen since admission/reentry or the prior assessment.</p> <p>Review of a "Care Plan," dated as initiated 03/05/2022 and revised 05/26/2022, revealed Resident #423 was at risk for falls related to generalized weakness, gait and balance problems, and multiple medical conditions. Interventions included putting the resident's bed in a low position after providing care, ensuring commonly used items were within the resident's reach, and ensuring the resident was wearing appropriate footwear (non-skid shoes/socks) prior to transfers.</p> <p>Review of "Progress Notes," dated 04/09/2022, revealed the facility received a call from the dialysis center because Resident #423 had not yet arrived. The nurse called the transport service and was told Resident #423 had collapsed on the way to dialysis and was taken to the emergency room (ER).</p> <p>Review of "Progress Notes," dated 04/09/2022, revealed the ER nurse contacted the facility and stated the resident was being admitted to the hospital for a compression fracture.</p> <p>Review of a "Radiology Report," dated 04/09/2022, indicated a computed tomography (CT) scan of the abdomen and pelvis revealed Resident #423 had a "new moderate</p>	4 133

4 133	<p>Continued From page 3</p> <p>compression fracture of L4 [fourth lumbar vertebra] with mild retropulsion [displacement of a fracture fragment into the spinal canal]."</p> <p>Review of an Office of Health Care Assurance (OHCA) "Event Report," dated as submitted to the state survey agency on 04/10/2022, revealed Resident #423 fell from the wheelchair during transport to dialysis. The van driver called 911, and the resident was transferred to the hospital. The report indicated the resident was admitted with a compression fracture of L4 (vertebra). According to the review of the cameras on the Handi Van, Resident #423 had not fallen. The detailed description on the report indicated the Director of Nursing (DON) interviewed the van driver, who reported the resident "did not fall" and that no one was near the resident when the incident occurred. The report further revealed that prior to calling 911, the van driver checked on the resident. The resident reported pain, and the driver questioned the resident as to whether he/she would like to go to the hospital. The report indicated "camera and video statement review" revealed no accident or abuse concerns. The facility's conclusion was that abuse and neglect were ruled out.</p> <p>Review of an "Investigation Report," dated 04/10/2022 through 04/16/2022, revealed the facility's investigation included interviews with two Occupational Therapists (OT), a Medical Records employee, the Social Services Director, two Licensed Nurses, the assigned Unit Manager, the van service supervisor, the Psychiatrist's Physician Assistant (PA), and a Physical Therapist (PT). The timeline of events indicated that during transport to dialysis, the resident collapsed. The report indicated a camera/video statement review was completed by the van service supervisor,</p>	4 133

4 133	<p>Continued From page 4</p> <p>who confirmed that the van driver did not harm the resident. The facility was unable to obtain a copy of the video footage but requested that the footage be retained in case it was needed in the future. Per the report, interviews with Certified Nursing Assistants (CNAs), licensed nurses, and involved therapy staff revealed no concerns regarding care for this resident. The facility concluded that the "investigation was unsubstantiated" and determined that education should "continue regarding fall prevention and pain management."</p> <p>Review of "Progress Notes," dated 04/15/2022, revealed the resident was readmitted to the facility with diagnoses including acute respiratory failure with hypoxia (low oxygen levels in the blood) and a closed fracture of the fourth lumbar vertebra. The resident was to receive physical therapy (PT), occupational therapy (OT), and speech therapy (ST).</p> <p>During an interview on 09/21/2022 at 3:31 PM, the DON stated Resident #423 did not have any falls while in the facility. The DON acknowledged he did not speak to Resident #423's family during the investigation of the fracture. He stated the van driver indicated the resident was waving for assistance, and the driver approached the resident. The DON indicated the resident did not fall; he/she was sitting upright in the wheelchair. The van driver was certain the resident did not fall.</p> <p>Review of "Witness Interview Notes," dated 04/11/2022, revealed the DON interviewed Registered Nurse (RN) #6 about the day the resident was diagnosed with a fracture.</p> <p>During an interview on 09/22/2022 at 10:04 AM,</p>	4 133

4 203	<p>Continued From page 11</p> <p>Licensed Practical Nurse (LPN) #2 stated she took her gowns off in the rooms and brought them out to the trash cans in the hallway. LPN #2 stated she thought the rooms had too much clutter, so the facility placed the trash cans in the hallway.</p> <p>1.c) Observations on 09/22/2022 from 10:36 AM to 10:50 AM on the Lewalani Ground Unit, which was designated for persons under investigation (PUI) for COVID-19, revealed the following:</p> <ul style="list-style-type: none"> - Room G01: Signage was posted for contact and droplet precautions. The trash can was in the hallway with the lid open. The can was full of contaminated PPE gowns. - Room G02: Signage was posted for contact and droplet precautions. On 09/22/2022 at 10:38 AM, an unidentified staff member removed a contaminated gown in the doorway of the room, rolled up the gown, closed the door to the room, walked to the trash can approximately two feet away, and pushed down the gowns in the trash can with her bare hands. - Room G03: Signage was posted for contact and droplet precautions. The trash can was in the hallway, with straps from PPE gowns hanging out the top of the can. - Room G09: Signage was posted for contact and droplet precautions. One trash can was in the hallway between Rooms G09 and G10, approximately three feet away from the door to each room. The lid was open, and the can was overflowing with contaminated PPE gowns. <p>During an interview on 09/22/2022 at 10:50 AM, RN #5 stated the Lewalani Ground Unit had two COVID-positive residents at this time, which were indicated with red signs on the door to their rooms. The other residents on this unit were on precautions due to potential exposure because a</p>	4 203

The door to the room was open. At 11:38 AM, an unidentified staff member left the room, removed the contaminated gown, rolled it up, and pushed it into a full trash can in the hallway. The trash can lid was left open. - Room 105: Signage was posted for enhanced precautions. A soiled linen can was in the hallway with gowns hanging out the top of the container. - Room 108: Signage was posted for enhanced precautions. Trash and soiled linen cans were outside the door to the room. Soiled linens were visible in the soiled linen can, and the trash can was overflowing with contaminated PPE. <p>During an interview on 09/22/2022 at 11:33 AM, RN #4 stated the resident in Room 101 was a new admission, and new admissions were presumed COVID-positive. RN #4 thought the door to Room 101 should be closed but did not close the door.</p> <p>Observation on 09/22/2022 at 11:38 AM revealed an unidentified staff member left Room 101, removed her gloves and gown, threw away the gloves, rolled up the gown, and stuffed it into an already full trash can. The trash can lid was left open.</p> <p>1.d) Observation on the Pensacola One Unit on 09/22/2022 from 9:35 AM to 9:55 AM revealed all rooms had enhanced precautions signage posted. Further observation revealed the following:</p>	4 203

4 203	<p>Continued From page 13</p> <ul style="list-style-type: none"> - Room 101: The trash can was in the hallway next to the door. The lid was open, and the can was almost full of contaminated PPE gowns. - Room 104: The trash can was in the hallway with the lid open. PPE gowns were visible in the can. - Room 110: The trash can was in the hallway with the lid ajar. - Room 111: The trash can was in the hallway next to the door to the room. The lid was open and PPE gowns were visible in the can. - Room 116: The trash can was in the hallway next to Room 115 with the lid open and PPE gowns visible. <p>1.e) Observation on the Pensacola Two Unit on 09/22/2022 from 9:16 AM to 9:32 AM revealed a trash can in the hallway by the door to Room 203. The lid was open and soiled gloves were visible in the can.</p> <p>1.f) Observation on the Pensacola Three Unit on 09/22/2022 from 9:00 AM to 9:13 AM revealed Room 315 had enhanced precautions signage posted. The trash can was in the hallway with the lid open. PPE gowns were visible in the can.</p> <p>During an interview on 09/22/2022 at 2:12 PM, the Infection Control Preventionist (ICP) stated the PUI Unit was where residents who were presumed to be COVID-positive were housed. The ICP stated the trash can lids should be closed. She indicated soiled items should be dropped into the trash cans rather than pushed, and PPE should not hang out of the cans. She stated the trash cans were placed by each door to save space in the residents' rooms. The ICP further stated staff should change gowns and gloves in the hallway and keep their mask and face shield on if they were only taking care of</p>	4 203

4 203	<p>Continued From page 14</p> <p>COVID-positive residents.</p> <p>During an interview on 09/22/2022 at 3:14 PM, the Director of Nursing (DON) stated the covers of the trash cans should be closed to prevent harmful microorganisms from circulating into the air. The DON stated contaminated PPE should be removed in the room or in the doorway for rooms with contact and/or droplet precautions. He stated the garbage bags with soiled PPE should not be shaken.</p> <p>During an interview on 09/23/2022 at 3:17 PM, the Administrator stated his expectation was that the trash cans be emptied routinely, not overflowing, and that staff use PPE when pushing trash into the cans.</p> <p>2. Review of a facility policy titled, "Infection Prevention and Control Program (IPCP)," revised 03/2021, revealed, "10. Visitors and residents will be informed and educated regarding ICCP as well as any outbreak situation which may affect them." The policy also indicated that when transmission-based precautions were implemented, "c. Resident, resident representative and visitors will be educated regarding the transmission-based precautions."</p> <p>Review of an "Admission Record" revealed the facility admitted Resident #428 on 09/02/2022 with diagnoses that included encounter for other orthopedic aftercare, asthma, bipolar disorder, and anxiety disorder.</p> <p>Review of an admission Minimum Data Set (MDS), dated 09/08/2022, revealed Resident #428 scored 15 on a Brief Interview for Mental Status (BIMS), indicating the resident was cognitively intact.</p>	4 203

4 203	<p>Continued From page 15</p> <p>Review of a care plan, dated as initiated on 09/06/2022, revealed Resident #428 was at risk for infection related to COVID-19. Interventions included:</p> <ul style="list-style-type: none"> - Document and report signs/symptoms promptly. - Observe droplet isolation precautions as needed. <p>During an interview on 09/20/2022 at 9:35 AM, Resident #428 stated he/she was not aware that he/she was on transmission-based precautions initially and wished someone had informed him/her. Resident #423 stated he/she was in the lobby, and an activity aide informed him/her of the precautions. Resident #423 stated he/she did not know when the precautions were supposed to start or when they would end.</p> <p>During an interview on 09/21/2022 at 10:28 AM, Unit Director (UD) #1 stated residents were notified when they were on transmission-based precautions. UD #1 stated the nurse on the unit notified the residents of the length of time they would be on droplet precautions and would notify the resident the day they arrived at the facility.</p> <p>During an interview on 09/22/2022 at 2:48 PM, Registered Nurse (RN) #9 stated when residents were admitted to the facility or started on isolation precautions, staff would explain it to them. RN #9 stated she was not sure if residents were told how long they would be on droplet precautions. RN #9 stated Resident #428's current isolation precautions started on 09/14/2022. RN #9 stated she thought she told the resident the length of time he/she would be on droplet precautions but may not have mentioned it. RN #9 stated the Unit Director would explain to residents what was going on with their precautions.</p>	4 203
