Medications that require storage in a refrigerator shall be properly labeled and kept in a separate locked container. FINDINGS Unlabeled Neosporin antibiotic ointment observed unsecured in facility's First Aid Kit. Substitute Care Giver removed medication and secured it during inspection.	FUTURE PLAN USE THIS SPACE TO EXPLAIN YOUR FUTURE PLAN: WHAT WILL YOU DO TO ENSURE THAT IT DOESN'T HAPPEN AGAIN? To prevent this from happening in the future, my plan is to input a checklist in the first aid kit. The checklist will include a list of all items that should be in the kit and a list of items that should not be in the kit ensuring to follow all guidelines set by DOH. This will help both me and my staff to know what is acceptable and what is not acceptable to be in the first aid kit.	02/13/2024
