	RULES (CRITERIA)	PLAN OF CORRECTION	Completion Date
☒	<p>§11-100.1-10 <u>Admission policies.</u> (a) Type I ARCHs shall admit residents requiring care as stated in section 11-100.1-2. The level of care needed by the resident shall be determined and documented by that resident’s physician or APRN prior to admission. Information as to each resident’s level of care shall be obtained prior to a resident’s admission to a Type I ARCH and shall be made available for review by the department, the resident, the resident’s legal guardian, the resident’s responsible placement agency, and others authorized by the resident to review it.</p> <p><u>FINDINGS</u> Resident #4 – The physician who completed the physical examination clearance for the resident upon discharge noted the resident to be “ARCH” level of care. However, information on the discharge summary/notes of the resident from the hospital stated that “if not for the hooyer lift, the patient would be bedbound.” Physician’s level of care evaluation and information from the discharge summary/notes conflict, which therefore conflicts with facility’s admission policy.</p>	<p style="text-align: center;">PART 1</p> <p style="text-align: center;">Correcting the deficiency after-the-fact is not practical/appropriate. For this deficiency, only a future plan is required.</p>
