SUBCHAPTER 1

GENERAL PROVISIONS

§11-216-1 Purpose and scope. The purpose of this chapter is to establish rules of practice and procedures which shall govern procedures for the disability and communication access board in reviewing construction documents in accordance with section 103-50, HRS. These rules shall be construed to secure the just and speedy determination of every proceeding authorized by law. [Eff 9/5/00; comp 9/20/03; am and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-2 Definitions. As used in this chapter, unless the context requires otherwise:

"Accessible" means a site, building, facility, or portion thereof that complies with the accessibility guidelines;

"Accessible route" means a continuous unobstructed path connecting all accessible elements and spaces of a building or facility. Interior

accessible routes may include corridors, floors, ramps, elevators, lifts, and clear floor space at fixtures. Exterior accessible routes may include parking access aisles, curb ramps, crosswalks at vehicular ways, walks, ramps, and lifts;

"ADAAG" means the Americans with Disabilities Act Accessibility Guidelines, Title 36 Code of Federal Regulations Part 1191, as amended;

"Addition" means an expansion, extension, or increase in the gross floor area or height of a building or facility;

"Alteration" means a change to a building or facility that affects or could affect the usability of the building or facility or portion thereof. Alterations include, but are not limited to, remodeling, renovation, rehabilitation, reconstruction, historic restoration, resurfacing of circulation paths or vehicular ways, changes or rearrangement of the structural parts or elements, and changes or rearrangement in the plan configuration of walls and full-height partitions. Normal maintenance, reroofing, painting or wallpapering, or changes to mechanical and electrical systems are not alterations unless they affect the usability of the building or facility;

"Applicant" means the person, agency, or officer for whom the interpretive opinion and site specific alternate design proceeding is instituted.

"Barrier removal" means the removal, rearrangement, restructuring, alteration, or addition, of any element or space of a building or facility to make it usable by persons with disabilities;

"Building" means any structure used and intended for supporting or sheltering any use or occupancy;

"Board" means the disability and communication access board;

"Circulation path" means an exterior or interior way of passage provided for pedestrian travel, including, but not limited to, walks, hallways, courtyards, elevators, platform lifts, ramps, stairways, and landings;

"Construction" means all the on-site and off-site work done to build, add, alter, or maintain

structures, from land clearance through completion, including excavation, erection, utilities, streets, walkways, and the assembly and installation of components and equipment;

"Construction document" means plan, specifications, addenda, modifications or changes, and other documents for the construction of a building or facility including preliminary, prefinal, and final versions of these documents;

"Covered multifamily dwellings" means buildings consisting of four or more dwelling units if such buildings have one or more elevators, and ground floor dwelling units in other buildings consisting of four or more dwelling units. Dwelling units within a single structure separated by firewalls do not constitute separate buildings;

"Document review" means a review of the construction documents to verify compliance with the accessibility guidelines and issuance of a written report listing items that do not conform to the accessibility guidelines;

"Element" means an architectural or mechanical component of a building, facility, space, or site;

"Facility" means all or any portion of buildings, structures, site improvements, elements, and pedestrian routes or vehicular ways located on a site;

"Facility access unit" means staff of the disability and communication access board.

"Fair Housing Amendments Act Accessibility Guidelines" means federal design guidelines used to implement the accessibility requirements of the Fair Housing Act of 1988, Title 24 Code of Federal Regulations Part 100, Subpart D;

"Interpretive opinion" means a determination as to the applicability or non-applicability with respect to a factual situation of any guideline of the disability and communication access board or of a statute which the disability and communication access board is required to administer or enforce, as determined by the disability and communication access board pursuant to section 103-50, HRS;

"Maximum extent feasible" means the occasional case where the nature of an existing facility makes it

virtually impossible to comply fully with applicable accessibility guidelines through a planned alteration. In these circumstances, the alteration shall provide the maximum physical accessibility feasible;

"Party" means each person admitted as a participant, or properly seeking and entitled to be admitted as a participant in any committee proceeding;

"Person" means an individual, a private or public organization of any character, a trust or estate, a society or firm, an assembly, a partnership, a corporation, a professional corporation, an association, the State, any political subdivision of the State, a county, a State agency or any instrumentality of a county;

"Petitioner" means a party making or on whose behalf a petition or application is made for an interpretive opinion, site specific alternate design review, or design specification proceeding.

"Presiding Officer" means the person conducting an interpretive opinion, site specific alternate design review, or guideline proceeding who may be the chairperson of the board or the chairperson's representative.

"Primary function" means a major activity for which the facility is intended. Areas that contain a primary function include, but are not limited to, the dining area of a cafeteria, the meeting rooms in a conference center, as well as offices and other work areas in which the activities of the public entity using the facility are carried out. Mechanical rooms, boiler rooms, supply storage rooms, employee lounges or locker rooms, janitorial closets, entrances, and corridors are not areas containing a primary function. Restrooms are not areas containing a primary function unless the provision of restrooms is a primary purpose of the area, e.g., in highway rest stops. For the purposes of this section, alterations to windows, hardware, controls, electrical outlets, and signage shall not be deemed to be alterations that affect the usability of or access to an area containing a primary function;

"Public buildings, facilities, and sites" means buildings, facilities, sites, and the infrastructure thereof that:

- (1) Are designed, constructed, purchased, or leased with the use of any federal, state, or county funds;
- (2) House state or county programs, services, or activities that are intended to be accessed by the general public; or
- (3) Are places of public accommodation or commercial facilities under the Americans with Disabilities Act, Title 28 Code of Federal Regulations Part 36, and are constructed on state or county lands;
- (4) Are constructed on lands that will be transferred to the State or a county upon completion of construction.

"Public use" means interior or exterior rooms, spaces, or elements that are made available to the public. Public use may be provided at a building or facility that is privately or publicly owned;

"Repair and maintenance" means preventative and routine upkeep, and/or preservation or restoration of an existing element, space, building, or facility. Normal maintenance, reroofing, painting or wallpapering, asbestos removal, or changes to mechanical and electrical systems are not alterations unless they affect the usability of the building or facility;

"Resubmittal" means plans, specifications, addenda, modifications or changes, and other documentation submitted as a reply to the original document review;

"Site" means a parcel of land bounded by a property line or a designated portion of a public right-of-way;

"Site specific alternate design" means a relief from specific requirements of section 103-50, HRS, as determined by the disability and communication access board pursuant to section 103-50, HRS, when the site specific alternate design will ensure an alternate

design that provides equal or greater access for persons with disabilities;

"Space" means a definable area, such as a room, toilet room, hall, assembly area, entrance, storage room, alcove, courtyard, or lobby;

"Structural impracticability" means those rare circumstances when the unique characteristics of terrain prevent the incorporation of accessibility features;

"Technical infeasibility" means with respect to an alteration of a building or a facility, something that has little likelihood of being accomplished because existing structural conditions would require removing or altering a load-bearing member that is an essential part of the structural frame; or because other existing physical or site constraints prohibit modification or addition of elements, spaces, or features that are in full and strict compliance with the minimum requirements. §11-216-3 Disability and communication access board. (a) The office of the board is at Honolulu, Hawaii. All communications applicable to this chapter shall be addressed to the chairperson of the board, Honolulu, Hawaii, unless otherwise specifically directed.

(b) For purposes of this chapter, the regular office hours of the board shall be from 7:45 a.m. to 4:30 p.m., Monday through Friday, inclusive, except holidays, unless otherwise provided by statute or executive order.

(c) All documents required to be submitted or filed herein shall be filed with the office of the board at Honolulu, Hawaii, unless specifically directed otherwise and within such time limits as prescribed by these rules or by order of the board. [Eff 9/5/00; comp 9/20/03; am and comp 11/25/13;

comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-4 Requirements for accessibility to public buildings, facilities, and sites - general.

(a) The construction of all public buildings, facilities, and sites by the State or county or on behalf of the State or any county subject to this chapter, shall be prepared so the buildings, facilities, and sites are readily accessible to and usable by persons with disabilities.

(b) Readily accessible to and usable by people with disabilities means compliance with the Americans with Disabilities Act Accessibility Guidelines (ADAAG), and the Fair Housing Amendments Act Accessibility Guidelines, as adopted and amended by the disability and communication access board. [Eff 9/5/00; am and comp 9/20/03; comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-4.1 Governing standards. Subject to amendment by the board or site specific alternate design granted by the board, the Americans with Disabilities Act Accessibility Guidelines, Title 36 Code of Federal Regulations Part 1191, as they existed on July 23, 2004, and the Fair Housing Amendments Act Accessibility Guidelines, Title 24 Code of Federal Regulations Part 100, Subpart D, are hereby adopted as the standards governing all plans and specifications for the construction of public buildings, facilities, and sites by the State or any county, or on behalf of the State or any county, and are made a part of this chapter. The board may also establish guidelines for design specifications not covered in the Americans with Disabilities Act Accessibility Guidelines, or the Fair Housing Amendments Act Accessibility Guidelines. [Eff and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-4.5 Requirements for accessibility to multifamily dwelling units required by the Fair Housing Amendments Act. (a) These design guidelines apply to the design and construction requirements of Title 24 Code of Federal Regulations Part 100, Subpart D. Compliance with these guidelines do not relieve persons from complying with design requirements of the Americans with Disabilities Act Accessibility Guidelines (ADAAG) as adopted and amended by the disability and communication access board.

(b) All covered multifamily dwellings with a building entrance on an accessible route shall be designed and constructed in such a manner that:

- (1) The public and common use areas are readily accessible to and usable by persons with disabilities;
- (2) All doors designed to allow passage into and within all premises are sufficiently wide to allow passage by persons with disabilities in wheelchairs; and
- (3) All premises within covered multifamily dwelling units contain the following features of adaptable design:
 - (A) An accessible route into and through the covered dwelling unit;
 - (B) Light switches, electrical outlets, thermostats, and other environmental controls in accessible locations;
 - (C) Reinforcement in bathroom walls to allow later installation of grab bars around a toilet, tub, shower, and stall and shower seat, where such facilities are provided; and
 - (D) Usable kitchens and bathrooms such that an individual in a wheelchair can maneuver about the space. [Eff and comp 9/20/03; am and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-5 Requirements for accessibility to public buildings, facilities, and sites - new construction. (a) All areas of newly designed or newly constructed public buildings, facilities, and sites shall comply with this chapter.

(b) Where a public building, facility, or site contains more than one use, each portion shall comply with the applicable requirements for that use.

(c) Full compliance with the requirements of this chapter is not required when an entity can demonstrate that it is structurally impracticable to meet the requirements. Full compliance will be considered structurally impracticable only in those rare circumstances when the unique characteristics of terrain prevent the incorporation of accessibility features.

(d) If full compliance with this chapter would be structurally impracticable, compliance with this chapter is required to the extent that it is not structurally impracticable. In that case, any portion of the facility that can be made accessible shall be made accessible to the extent that it is not structurally impracticable. [Eff 9/5/00; comp 9/20/03; am and comp 11/25/13; comp MAY 14 2017]
(Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-6 Requirements for accessibility to public buildings, facilities, and sites - additions and alterations. (a) Additions and alterations to existing public buildings, facilities, and sites, including qualified historic public buildings, facilities, and sites, shall comply with this chapter.

(b) Each addition to an existing public building, facility, or site shall comply with the requirements for new construction.

(c) Where existing elements or spaces are altered, each altered element or space shall comply with the applicable requirements.

(d) In alterations, where compliance with applicable requirements is technically infeasible, the

alteration shall comply with the requirements to the maximum extent feasible.

(e) An alteration that decreases or has the effect of decreasing the accessibility of a public building, facility, or site below the requirements for new construction at the time of alteration is prohibited.

(f) An alteration of an existing element, space, or area of a public building, facility, or site shall not impose a requirement for accessibility greater than required for new construction. [Eff 9/5/00; comp 9/20/03; am and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-7 Coordination with other agencies.

(a) All departments or agencies of the state or county shall seek the advice and recommendations from the disability and communication access board on all construction documents to ensure conformance with the accessibility guidelines as required by this chapter.

(b) Each state or county department or agency shall submit the latest construction documents which have been produced to the board for review.

(c) A transmittal of the construction documents shall contain, at a minimum, project name, project number (if assigned), name of project coordinator, project consultant, and department or agency responsible for the project.

(d) When submitting construction documents, the department or agency shall identify the project phase and type. Project phase shall be noted as, but not limited to, preliminary, prefinal, or final. Project type shall be noted as, but not limited to, new construction, alteration, addition, or a barrier removal project. [Eff 9/5/00; comp 9/20/03; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-7.1 Obtaining necessary information.

(a) The board may, in its discretion or upon the application of any interested person or an agency of the state or county government hold such proceedings as it may deem necessary for the purpose of obtaining information necessary or helpful in its rules, regulations, design specifications, and interpretive opinions.

(b) Procedures to be followed by the board shall, unless specifically prescribed in this chapter, be such as in the opinion of the board will best serve the purposes of such proceedings. [Eff and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-7.2 Public notices. (a) When an applicant for a site specific alternate design or similar action has an application pending before the board, the board may require the applicant to pay all costs related to the processing of said application. Costs may include processing fees, proceeding costs and costs related to publishing the required public notices.

(b) When a public notice is required, and the board had determined that the applicant shall pay all fees assessed for publishing legal notices, payment shall be made directly to the newspaper publishing said notice.

(c) The public notice shall appear in a newspaper of general circulation in the county in which the activity is proposed.

(d) The public notice shall include at least the following:

- (1) Name, address and phone number of the agency issuing the public notice;
- (2) Name and address of each applicant;
- (3) Brief description of the activities or operations at the location of the proposed site specific alternate design;
- (4) A brief description of the procedures for the formulation of final determinations,

including the specified comment period and other means by which interested persons may comment upon those determinations; and

- (5) Address and phone of the agency premises at which interested persons may obtain further information and may inspect a copy of the application and related materials.

(e) The public notice shall be reviewed and approved by the board prior to publication and must appear in the approved form.

(f) The applicant shall obtain an affidavit specifying the date the notice appeared in the §11-216-7.2 newspaper(s) and make a copy of the affidavit available to the board.

(g) The board shall make information regarding the proposed site specific alternate design, design specification or interpretive opinion available for inspection in the county in which the applicant's activities are being proposed, and may at its discretion circulate information to appropriate state and county officials. [Eff and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-8 Public information. (a) Unless otherwise provided for by statute, these rules, or order of the board members, all information contained in any submittal, petition, statement, recommendation, report, map, brief memorandum or other document filed with the board shall be available for inspection by the public after a written report has been issued.

(b) When permitted or authorized by the board, matters of public record may be inspected in the offices of the board in Honolulu during regular office hours. [Eff 9/5/00; comp 9/20/03; comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-9 Severability. If any provision of this chapter, or the application thereof to any person or circumstance is for any reason held to be invalid, the invalidity shall not affect other provisions or applications of this chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable. [Eff 9/5/00; comp 9/20/03; am and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

SUBCHAPTER 2

PROCEDURES FOR REVIEW OF DOCUMENTS

§11-216-15 Filing of documents. (a) All construction documents submitted to the board for review shall be filed with the appropriate review fee at the board office during regular office hours. Construction documents with the appropriate review fee may be sent by mail or hand-carried to the board in Honolulu, Hawaii.

(b) All construction documents shall be filed with the board unless otherwise directed by the board.

(c) The transmittal or cover letter that accompanies the construction documents submitted for review shall be signed in indelible ink by the project manager having jurisdiction over the project. The signature of the person signing the document indicates that the person has read or reviewed the construction documents; that to the best to his or her knowledge, every statement contained in the documents, and any subsequent documents to be submitted for review are true; and that no such statements are misleading.

(d) Every document filed by any person or office with the board shall state on the transmittal or cover

letter the name and mailing address of the department or agency and the name of the person who is requesting a document review from the board.

(e) Construction documents received by the board shall be date-stamped by the board staff. [Eff 9/5/00; comp 9/20/03; am and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-15.5 Review fees. (a) The review fee for construction documents filed with the board on or after January 1, 2013 shall be four-tenths of one percent for the first \$500,000 of the estimated construction cost plus two-tenths of one percent of the estimated construction costs greater than \$500,000 up to and including \$2,000,000 plus two one-hundredths of one percent of the estimated construction costs over \$2,000,000 except as follows:

- (1) The minimum review fee for construction documents subject to accessibility guidelines under section 103-50, HRS shall be \$200;
- (2) The disability and communication access board may limit the maximum review fee for construction documents of infrastructure projects or projects managed by private nonprofit entities to \$3,000; and
- (3) There shall be a \$50 review fee for projects with constructions documents that do not reflect any elements subject to accessibility guidelines under section 103-50, HRS.

(b) For purposes of determining the review fee, the estimated construction cost shall be the cost for all work included in the construction documents that is covered under section 103-50, HRS. The Facility Access Unit shall reply in writing confirming receipt of the construction documents and review fee, appropriateness of the review fee, and acceptance of the construction documents for review.

(c) No additional review fee shall be charged upon resubmission of the construction documents, unless the resubmission requires substantial review for accessibility. If the original construction documents are abandoned and the construction documents submitted in lieu thereof are in fact for a new project rather than an identical project, or where a modified set of construction documents is for an essentially different concept, a new review fee shall be paid. This is regardless of the fact that the project may have the same name, be of the same general size, and be situated at the same location as the project for which the original application was made.

(d) If the applicant requests the cancellation or withdrawal of the submission and return of the construction documents and review fee, this shall be granted unless the review fee has been processed by the disability and communication access board. No portion of the review fee can be returned after the review fee has been processed by the disability and communication access board. [Eff and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-16 Review of documents. The board staff shall review all construction documents filed with the board for each project subject to section 103-50, HRS, and shall prepare a written report listing items in the construction documents that do not conform to the accessibility guidelines. [Eff 9/5/00; comp 9/20/03; comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-17 Requests for approval of site specific alternate design. (a) If an applicant submits a design that departs from the minimum requirements for accessibility as specified in the accessibility guidelines, the submitted design shall provide equal or greater accessibility. As required

by this chapter, an applicant shall submit in writing a request for approval of a site specific alternate design to the board for any design that the applicant claims will provide equal or greater accessibility than that provided by the accessibility guidelines. The board may approve or disapprove the request for a site specific alternate design for any design that departs from the minimum requirements for accessibility and is claimed will provide equal or greater accessibility.

(b) The board staff may provide comments to a site specific alternate design request during public hearings held by board.

(c) Any final decision made by the board concerning a site specific alternate design shall be binding upon all subsequent document reviews. [Eff 9/5/00; comp 9/20/03; am and comp 11/25/13; comp MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-18 Requests for interpretive opinion.

(a) If, during document review the applicant or board staff finds that a clarification of a portion of the accessibility guidelines is necessary, the applicant or board staff shall submit in writing a request for an interpretive opinion to the board as required by this chapter.

(b) Any final decision made by the board concerning an interpretive opinion shall be binding upon all subsequent document reviews. [Eff 9/5/00; comp 9/20/03; am and comp 11/25/13; comp

MAY 14 2017] (Auth: HRS §348F-6) (Imp: HRS §103-50)

§11-216-19 Written report. (a) The staff shall forward the document review report with the project's construction documents to the department or agency project manager or design consultant that originated the submittal.
